Canyon News Won Twice in Contests

The Canyon News won two prizes at the 46th Annual Convention of the Panhandle Press Association held in Amarillo Friday and Saturday.

For the second time, The News won the distinction of having the best editorial page in the association. No other weekly newspaper has scored such a high point in editorials.

The News placed third in the contest for presswork, typography and make-up.

Farm Bureau To Hold Formal Opening Friday

Randall County Farm Bureau with approximately 500 members is having a grand opening of its new building at 1710 Fifth Avenue Friday evening between 2 and 6 o'clock. Formerly the Farm Bureau offices were located in the rear of the old First National Bank building. For several months the officers of the organization had been planning to build. Then they decided to buy a place already built and remodel it.

After looking about they decided to take the building at 1710 Fifth Avenue. It was purchased and remodeled to provide three office spaces up front and an auditorium in the rear. In addition to the Farm Bureau offices in the building and the Insurance Adjustor, there is also office space for the Tri-State Dairy Association. When there is need for a meeting, and there usually is quite often, there is plenty of room in the rear.

The Randall County Farm Bureau was organized in 1936 and has been an active organization ever since. At first they had 65 members and at present has about 500. The largest number of members the organization has ever had was listed as 636. This number was given by W. H. Upchurch, a former officer in the organization.

The first president of the Randall County Farm Bureau was J. P. Hicks. Records may not be complete on other past presidents but those known to have served include Clarence Beckman, A. E. Wise, L. B. Hammond, Earl Wesley, Ross Craig, James Eddie Park, Gus Dietz and current president, W. T. Robinson.

Treasurer of the Farm Bureau is R. B. Gist, Jr. Gus Dietz is the outgoing president.

In addition to the formal opening Friday there will be souvenirs or favors given by the Farm Bureau. Refreshments will also be served at the newly remodeled building from 2 until 6 p. m.

Cowboy Hall of Fame, Okla. City

The committee selected Oklahoma City as the location of the Cowboy Hall of Fame Saturday when a check for half a million dollars was handed to the committee.

Dodge City, Kansas, and Colorado Springs, Colorado, were the other towns in the running. It was rumored that both Oklahoma City and the Colorado city were going to offer a million dollars for the location, but this was a fallacy.

Canyon was one of the ten towns visited earlier in the campaign, but was eliminated by the restrictions placed on sites.

Mission To Be Held Presbyterian Church

Dr. J. Hoytt Boles, one of the outstanding preachers of the Presbyterian Church, will hold a preaching mission at the local church in Canyon starting Sunday and continuing through Friday night.

Dr. Boles is a Panhandle product. He received much of his early education in Amarillo. He took a degree from Trinity University, and from McCormick Theological Seminary at Chicago. For eight years he was pastor at Tulsa.

From 1940 until 1945 he was pastor of the Hemphill Church at Fort Worth. Since then he has devoted his time to national missions and evangelistic work.

WOMAN'S BOOK CLUB TO MEET
Because of the postponement of the regular meeting of the Woman's Book Club on April 13, there will be a meeting April 20 at the regular hour.

Call 5-2294 for your mattress work; also your chain link fences. 2p4

Child Lacerated By Dog Bites

LEONARD BAUER, JR.

Pictured above is Leonard (Lenny) Bauer, 2-year-old son of Mr. and Mrs. Leonard Bauer of Happy, who was bitten March 4 at the Walker F. Parker home in Happy. The fact that he was bitten by a seemingly harmless dog has caused Canyon to pass the ordinance which calls for the destruction of stray animals.

Injuries were confined to his head and face. Several stitches had to be taken in his scalp and a number of clamps had to be used in various places on his face. The dog which bit the boy was under observation for 10 days and showed no signs of rabies.

Inspection Tour Advanced for the Postal Hiway Run

A detailed schedule for the inspection trip of highway postal service was announced as having been advanced 25 minutes.

The new truck will arrive in Canyon at 8:05 Saturday morning and will remain for 20 minutes. The truck will run west to Roswell, arriving at Umbarger at 8:45 a. m. where it will be opened for inspection for 10 minutes.

Mayor Hosea Foster and Chamber of Commerce President Truett Hull will make short talks, following which Canyon citizens will be invited to inspect the new service. Two mail men will work the mail on the special inspection run. Those desiring that mail be carried with special stamps may make the request.

Starting Sunday, the only mail received in Canyon will be by trucks, running both South to Lubbock and West to Roswell. This run to the West will be made at night.

Arrived in Vienna, Austria, March 17

Capt. and Mrs. J. D. Watts and family arrived in Vienna, Austria, March 17 and are settled in their new home. Capt. Watts is with the American troops.

Mrs. Hattie Brasel, mother of Mrs. Watts, states that the family is comfortably settled, and like the new surroundings.

MARRIAGE LICENSE

Clifton Rudell Pugh to Miss Rosemary Beatrice Weller, April 15.

Grand Jury Calls For Better Police Protection in County

The Grand Jury through its foreman, W. S. Bennett, has called upon Randall county to hire more deputies and the city of Canyon and Amarillo to put more men on police protection.

The Grand Jury called upon Canyon to furnish at least one patrol car to be on the streets at least 24-hours per day; for the city of Amarillo to put more men in that section of Amarillo which is located in Randall county; for Randall county to hire two additional deputies in connection with the sheriff's department.

In addition to these additional men, the Grand Jury called for more parking space around the office of deputy tax collector in South Amarillo. No additional space has been given to this office since it was located in the residential section of Amarillo. The Grand Jury returned two indictments and adjourned for the term which expires this week.

Miss Robinson at Art Meeting

Miss Isabel Robinson, head of the art department of West Texas State, attended a meeting of the Art Guild in Amarillo Saturday.

The association will hold its July meeting in the Palo Duro Canyon where artists will sketch the beauties of the canyon.

Contributions to WW II Memorial Coming in Slowly

"Contributions are coming in slower than expected for the Randall County dead of World War II Memorial," Jack Jennings said Saturday. Jack added that a person need not be a veteran to contribute to the Memorial Fund. He also said that it was hoped and expected that more World War II veterans would contribute to the fund.

Only about one-tenth of those who were sent letters have made contributions. These contributions, many of them have been for \$5 and \$10 each. The total amount of money collected toward the memorial was \$155 Saturday morning. The memorial will cost \$600 and most of this amount must be collected before the plaque is ordered.

Jennings said Saturday that no one was underwriting the Memorial which means it's simply on a cash basis of pay-as-you-go. The entire \$600 should be collected before April 30. This will make it possible for the memorial to be constructed and dedicated at the same time that the rest of the park is dedicated.

Jack said work on the swimming pool was coming along fine and that he certainly hoped contributions would pick up so the memorial could be dedicated on schedule.

Rotary Club To Have Picture Show Saturday Morning

A special picture show will be held at the Varsity Theatre on Saturday morning, April 23, at which time the picture "Shane" will be shown on the screen.

The show starts at 9:30 and all children with their parents are asked to attend.

Admission will be a free-will offering for the playground equipment for the new city park. The Rotary Club is underwriting a fund of \$5,000 for the purpose of buying equipment, and donations will be sought for this fund Saturday morning.

\$250 Fine and 60 Days in Jail Given

Judge Roy Joe Stevens imposed a fine of \$250 and 60 days in jail for causing the wreck near Umbarger recently.

Bertie Elvert Senter, Jr., of West Virginia was given this fine and jail sentence.

DEN 6 PACK 31 MEETS

On Monday Den 6 met with Denner Randy Warren in charge. Den Chief Joyner led the den in Bobcat work.

Seven Cub Scouts present were Richard Merchant, Kenny Crossland, Bob Barnard, John Brandon, Randy Warren, Ronny Stevens, and Curtis Sigman.

Mrs. E. I. Boyce of Midland is spending several days of this week visiting with relatives and friends in this vicinity.

Highway South Land Sought

The Commissioners Court has set about buying land south of Canyon for the four lane highway which will be built to connect at Happy with the Swisher county road.

Under the plans of the highway department, the road will be 250 feet wide from Canyon to the road south of town; 112 feet coming from the east side and 38 feet from the west side. The highway will be set over enough to miss Dreamland Cemetery.

From the railroad on to Happy, the road will be 200 feet wide, all coming from the east side. The State has not completed the survey for the expressway between Canyon and Amarillo.

Charles Brasher returned home Monday from St. Anthony's Hospital where he received treatment for acute sinusitis. He is much better now and hopes to be back in school soon.

Mrs. Mavis Hill was in Austin recently for a few days visiting relatives.

Dairymen of this area were in session in Plainview last week, when honors were given two of the members for their untiring efforts to make the Plains Dairy Show at Plainview an outstanding success. Pictured above are: Marion Bruce of Randall county, new vice-president; Martin Fulcher of Lubbock, president; Richmond Hales of Canyon, outgoing president; Andy Holt of Plainview, 1955 finance chairman.

Canyon To Go Cityfied in Phone Numbers

Canyon's telephone system will go on the "metropolitan numbering plan" next November, according to A. O. Thomas, district manager for Southwestern Bell Telephone Company.

"By 'metropolitan' telephone numbers," we mean numbers consisting of a central office name and five numerals, like the ones in use today in cities like Amarillo, San Antonio, and Los Angeles," he pointed out.

The new Canyon numbers will have a central office prefix, probably OLIVE-5, followed by four more numerals. Most Canyon numbers will have the same five numerals they have now and will be preceded by two letters of the central office name, OLIVE. However, a few numbers may change completely because of technical reasons.

"This number change is being made so we can join Canyon to the nationwide operator long distance dialing network," Thomas said. "This new system will permit long distance operators to dial directly to about 30,000,000 telephones throughout the United States and Canada. Your long distance calls over the dialing network usually will be completed in 45 seconds, or less."

Changing telephone numbers in Canyon to two letters and five numerals is part of a nationwide plan. Long distance dialing by operators is simplified by the new numbers. Direct long distance dialing by customers — although still in the future — depends on the "2-5" system.

Thomas suggested that customers keep the change in mind when ordering stationery, advertising matter, and other material that lists the telephone number.

"In addition to informing each customer of his new telephone number as far in advance as possible, we also will publish the new numbers in a telephone directory which will be delivered before the change is made," he added.

Members Audubon Group Meeting

Sy Martin of Amarillo delighted members of the Panhandle Audubon Society, many Canyon school children and others interested in birds, wild animals and scenery when he showed movies of a vacation trip to the Banff region of Canada. The meeting Friday night was held in the auditorium of the Education Building.

Of special interest were many pictures of the Stoney Indians as seen in ceremonial dress. Exceptional photographs of mountain sheep and mountain goats were also featured.

Miss Sarah Thompson was responsible for much of the success of Friday night's program. A free will offering netted a nice sum to be used by the Audubon Society to assist the Panhandle-Plains Museum.

Joe Bailey, the president, states that the next regular meeting of the Audubon Society will be held in the film room of the college library on April 25 at 8 o'clock. Any interested persons are invited to attend.

ATTEND 50TH ANNIVERSARY

Messrs. and Mesdames Ralph Cabe and family, Jim Cabe and family, Edd Cabe and family attended the 50th wedding anniversary of the parents of the men last Saturday in Abilene.

Mr. and Mrs. H. W. Cabe, the celebrants, were for many years residents of Canyon before moving to Abilene.

Mr. and Mrs. Bud Myers and children of Lubbock spent the week-end with his mother, Mrs. W. S. Myers.

Flynn Succeeds Crain Manager of the Co-ops

Consumers Fuel Assn., Inc., of Canyon closed its fiscal year on February 28, ending its 26th year of operation. The audit report of the past year, recently released by Cornell & Co. of Amarillo, revealed the Association to be in excellent financial condition, and despite drought and resulting poor crops, the past year was the best in the history of the Association.

After the conclusion of the fiscal year, Newton Crain, manager of the association, resigned his position in order to devote his entire time to personal business, and requested to be relieved by May 1. In lieu of a permanent managerial arrangement, J. E. Flynn, who has been with the organization for a number of years, has been designated temporary manager.

Drouth Feed Date Advanced

Farmers in need of feed for their herds may make application to the local committee up until April 29 according to a new ruling of the government.

Only two dates remain for filing their applications: Saturday, April 25, from 9 a. m. until 5 p. m.; and Friday, April 29th, 9 a. m. until 5 p. m.

A. R. Glenn is chairman of the local committee which will take the applications. The office for application will be on the south side of the east door of the court house, across from the County Agent's office. Applications may be filed there.

Births
A son was born to Mr. and Mrs. Travis Williams of Happy April 14.

Born to Mr. and Mrs. Carl Eugene Hair a son on April 16.

A daughter was born to Mr. and Mrs. Austell Burrus of Gruver on April 17.

Mr. and Mrs. Pete Ernest Fischbacker of Amarillo are the parents of a daughter, born April 17.

Born to Mr. and Mrs. H. L. Greenfield a son on April 18.

A daughter was born to Mr. and Mrs. Pat Edward Campbell of Bushland on April 19.

CARDETTES MEET

With Mrs. Jennie Morgan as hostess the Cardettes met at their regular session at her home on Tuesday evening, April 12.

Coffee with gingerbread topped with whipped cream and pineapple were served to Joan Hicks, Mary Ann Currie, Bettye Davis, Jane Harding, Shirley Lehnick, Opal Dawson, and Sue Clark following the regular games of canasta.

Next meeting will be in the home of Mrs. Joan Hicks.

Dr. Walter H. Juniper, dean of West Texas State College, was elected vice-chairman of the Deans and Directors of Supplemental Programs section of the Association of Texas Colleges. Dr. Juniper attended a meeting of the association in Austin last week.

Bill Bailey left Sunday for Cincinnati, Ohio, by plane, where he will study for three weeks in connection with his work in Amarillo.

First, Second Grade Children Get Polio Shots

All Randall County's first and second grade children will have the first of their polio shots by the end of this afternoon.

The children at the Canyon Elementary School received theirs yesterday forenoon, those of the West Texas Elementary School this forenoon, and the children of the Umbarger school will be vaccinated this afternoon.

Dr. R. P. Jarrett has received notice of a change in the vaccination plan. As a result of the new knowledge gained through the experiments of last year, the physicians connected with the National Foundation for Infantile Paralysis have decided that greater benefit will be gained by giving only two shots this spring to each child, and leaving the matter of the second booster shot until several months later.

In this way 50 per cent more children can receive protection at once, before the opening of the polio season. Under this plan it is understood that the third inoculation will be financed by the parents of children sometime during the next school year as each family physician advises.

Local physicians have been advised that a limited amount of Salk vaccine will be available to them from now on. It is advised that small children and pregnant women be given protection first as they are more likely to get polio than persons in other groups.

"ASMAR" Will Be Produced

The oldtime minstrel show, with its endmen and interlocutor, with a few flourishing variations along the line of the can-can made famous in the early West, will be presented here at West Texas State Thursday and Friday nights.

Ninth annual "ASMAR," the Alpha Sigma Minstrel and Revue, is set for a two-night production at 8 p. m. in the Administration Building auditorium. It is sponsored by Alpha Sigma Xi fraternity. Admission is 50 cents a person.

Director of the show is Keith Gaede, Muleshoe showman, and sets have been done by Marvin Moon, Perryton art student. A "Showboat" theme is to be followed. Assistant director is Rex Easterwood, Dimmitt.

1000 Chorus Members Here

Approximately 1000 area junior and senior high school chorus members will compete at West Texas State College Wednesday and Thursday in the annual Region XI Vocal Music Competition-Festival of the Interscholastic League.

Besides choirs, which are divided into classes from junior high schools through the three large high schools in Amarillo, Borger, and Pampa, small ensembles and solo performers will be seeking Division I ratings. Medals are awarded individual performers and plaques to groups. Choirs winning top ratings in both performance and sight-reading are awarded "sweepstakes" plaques.

Word has been received by Mrs. G. B. Combs that her son, Burleson Atkins, is greatly improved but will be confined to the Flow Hospital in Denton for about three more weeks when the doctors are attending him hope for complete recovery.

Pvt. Allen Downing, son of Mr. and Mrs. Neil Downing, is in Hamelburg, Germany, on assignment with the army.

Mrs. Isabelle Dickinson of Amarillo spent from Wednesday until Friday with Mrs. W. I. Wester.

EDITORIAL COMMENTS

Question of Youth Continues
A Great Problem in Nation

Being a man almost in the dotage age is no excuse for refusing to look for a moment at the question of youth.

Youth of today has changed.

Youth of today are making demands which the youth of yesterday would have considered altogether impertinent and uncalled for by their elders.

You who fight the battle of democracy wonder why youth has been deprived of the ballot when feeble old men and old women are free to go to the polls and vote.

Youth of today wonders why there should be breaks put out on them from early marriages and early children, when as a matter of record this same thing has been practiced the world around, except in this enlightened America.

Youth of today demands freedom; freedom to ride cars as they please; to smoke when they feel like it; to drink as much booze as they can hold; and a score of other things upon which their elders frown. They resent the restraints imposed upon them.

Youth today wants freedom in their schools; in their social life; in their material life.

Maybe youth is more than 50% right in their demands. Maybe they are 100% right. Who are we to judge the rights and wrongs of youth?

Polio Has Been Whipped by
Continued Use of Vaccines

It seems that polio has been whipped by science. There is now a sure cure for polio, and a way of escape before polio hits.

Polio is first of all a child's disease but will possibly be eradicated among children when prompt attention is given to them in the way of vaccination.

Polio hits older persons, but the percentage of cases is very small. President Roosevelt was one of the victims. Scores of other persons whom you know and with whom you have been associated are likewise polio victims.

You heard the appeal for polio funds earlier in the year when it was stated that the disease could be conquered if the people furnished the money for the fight in 1955. The money came; the war was won; and now polio is another conquered disease. That is, it will be conquered if and when all children are vaccinated against the disease, and the shots continue throughout the years.

Elders must learn that vaccination among children is as necessary against polio as against any other common disease which has been whipped.

Fight on Cancer Continues
As People Learn About Disease

We looked at a film on cancer the other day. So did a lot of other men, but we have heard no good or bad reaction.

The thing that struck us so forcefully was the fact that cancer is not such a dreaded disease. The film tried to indicate that while cancer was a killer, yet it could be cured—provided the patient sought help in time; refused to become panicky; followed directions carefully.

Frankly we have no way of telling just how nearly the truth it was. At least we have found this to be a fact: So few people are willing to go to their doctor and tell him just what is wrong until it is too late. By that time nothing will cure him.

Becoming alarmed about your condition will never cure any person.

Cancer is a terrible disease, to be sure. No one can discount this. But prompt and adequate treatment may save many victims of cancer.

The theme of this film was: When cancer hits, put yourself under the care of competent physicians, and do not become fearful of the worst.

This is good advice but who will take it; cancer or no cancer.

Confusion Results When Men
Talk; Talk; Talk Too Much

It is charged by Democrats and many Republicans alike that the Eastern policy of President Eisenhower is leading us into war.

Well, wherein does this policy differ from the one followed by President Truman? The Democrats in Congress thought that Truman was okay; now believe that Eisenhower is all wet.

Back in the Truman days, the Republicans were howling their heads off that Truman did not know what he was doing; and the Democrats approved his actions.

Frankly, we do not know which way is right. But we do offer the suggestion that too many folks are talking when they should be listening; and too many are shooting the breeze when they should be silent.

Members of Congress must talk in order to stay in Congress; those on the outside, who love to break into national prominence, must talk to gain attention; old soldiers, diplomats, and the like are most critical. All agree that we are feeding propaganda to the Reds.

Talk; talk; talk; goes on in Washington; and maybe you think that the Reds are not using all of this senseless and useless talk. It is good for propaganda, if for no other reason.

Hang 'er Back Up Was the
Decree of Doctor of Garner

The other day Former Vice President John Nance Garner was pictured in the daily press hanging back in moth balls his evening suit which he threatened to take to Washington for the dinner honoring Speaker Sam Rayburn of Texas.

So far as Texas is concerned, Mr. Garner had as well stay at home as his doctors declared he must. So far as any persons near or far from Uvalde knows, Garner has never opened his mouth on politics in the past 12 years.

At 86 years of age, his health is not good. Perhaps John Nance Garner has missed the political boat. He could have gained international fame by speaking his views. Since he is not an orator, and since he has elected to be the silent man, he plays his part well.

If more of our public men could learn that silence is golden, the nation would be better off.

Personally, we get awfully tired of writing these paragraphs and we can imagine what our readers think.

Crack Down on Adults Who
Furnish Aid to Delinquents

There have been a number of meetings here recently in which groups discussed how to curb juvenile delinquency. The emphasis on corrective programs invariably is placed on the juvenile himself, on how to keep him out of mischief or rehabilitate him if he already has gone astray.

Juvenile delinquency will not be controlled until the adults who contribute to the delinquency are controlled. Who publishes the trashy literature to pollute young minds? Who makes the suggestive records which juvenile commissions have been fighting lately? Who runs the honky-tonks in which juveniles go astray? Who is responsible for the broken homes, which is perhaps the major cause of juvenile delinquency?

In each case the answer is the same. Adults. In all but the latter case, the adults are making a livelihood out of enterprises detrimental to youth. The profit motive is greater than their concern for the welfare of juveniles.

The *News* is not stating any new theory. It long has been recognized that adults are the main cause of juvenile delinquency. The trouble is, not enough has been done about it. We seek laws to curb the juvenile, instead of the calloused adult who is more responsible for the delinquency.

Crack down on the adult who causes it and juvenile delinquency will drop.

Soak-the-Rich—and Then See
What Happens in This Nation

Many people still regard the income tax as a soak-the-rich program. The Tax Foundation in New York has come forward with some figures to show how wrong that impression is. "Any chance of soaking the rich to pay government's costs died with prohibition and Empress Eugenie hats," said the foundation. Everybody gets soaked these days.

Back in the 1920s, when Uncle Sam was spending sanely, the bite was not so painful. Even in 1929, a married man with two children and a net income of \$5000 paid only \$3 in income tax. Now he pays \$520.

The rate of government spending has increased so astronomically that even if Congress wanted to soak the rich to pay for it, there wouldn't be enough revenue. The rich don't have enough income to support the \$64,000,000,000-a-year government spending.

If the federal government took all taxable income above \$10,000 — a \$15,000-a-year man would pay today's taxes on the first \$10,000 and the remaining \$5000 would all go to the government—Uncle Sam still would not collect more than \$5,000,000,000 additional, which wouldn't run the government for a month, according to the Tax Foundation. If the federal government took every penny over \$4000, the additional revenue would be only \$13,000,000,000, or about a fifth of our annual spending.

These are sobering thoughts. They are alarming, since we are approaching the maximum limit of revenues from taxes and at the same time increasing the national debt. The trend must be reversed if our country is not to suffer disastrous consequences.

Former President Truman Looks
Over the Past Ten Years

President Roosevelt died 10 years ago last Tuesday and President Truman took his place in the White House.

Truman reflected the other day: "I would have been much happier if I could have served out the term as Vice President and probably have gone back to the Senate from Missouri."

The former President said a mouthful in this statement. No man in recent years, except Franklin D. Roosevelt, has enjoyed life in the White House. The nation kills its presidents by imposing too many obligations upon them. That is the reason that President Eisenhower will likely refuse another term. He is not a strong party man, and the bickerings of little men around him causes him to rush away to play golf at every opportunity. Perhaps this is the real reason that the President wants to forget it all and retire from active duties.

The farm which he is improving at Gettysburg, Pa., looks more like a mansion than a farm. No doubt he would be willing to quit and retire to a less strenuous life, if the people will let him.

We shall see what we shall see.

Let the Big Boys Fight It
Out Over the Trinity Bill

The mail here at *The Canyon News* office has been flooded recently by the Trinity River bill fight. Fort Worth and Dallas have been joined in their fight for the bill by a score of other towns.

Houston and the railroads of Texas oppose the bill.

The best thing for the balance of us is to leave well enough alone and stay out of the fracas.

There are some people who believe that everybody wants to know just exactly how they feel, and why.

Our sympathy goes to the poor fellow who is carrying the troubles of the world upon his conscience.

What a fine thing business would be if every man lived up to his contract and paid for what he bought.

It is very hard to mix hard work and loafing; somehow, they do not seem to get along together.

You can't foretell the future always by the past — usually because you don't know the past.

No problem of life has ever been solved by dodging the facts and running away from the truth.

Our idea of a hard job belongs to the farmer who has to figure out what to plant each year.

If public speakers would prepare their speeches, more people might listen to them.

Speaking of life's little afflictions, have you ever walked far in a pair of tight shoes?

There are people in the world who read the Bible to see if it agrees with them.

As far as we can see, the birds have won their seasonal battle with hunters.

I GIVE YOU
TEXAS
By
BOYCE HOUSE

The Mississippi has always rolled past Memphis—and, for nearly as long, Joe Curtis has been the river editor of the Memphis Commercial Appeal. He has written innumerable true stories, old and new, about the Father of Waters — stories of steamboats when they were floating palaces and when Mark Twain was a pilot and when gamblers armed with derringers coolly played for fortunes and about races between boats and of boiler explosions and fires with heavy loss of life and heroic deeds.

But of all the writeups of his which I have read, the one I remember best was not about Joe Curtis' beloved river at all.

It was back in 1920 and Arkansas was having its first oil boom though of course Texas and Louisiana had already had numerous oil plays. Editor C.P.J. Mooney assigned Curtis to visit El Dorado, Ark., and write about the oil rush. He did a vivid article, the first detailed account of an oil boom that I had ever read. Soon after that, I left Memphis to come to Texas and with the determination to get a job on a newspaper in an oil section so as to write a book about the romance of oil.

I landed in Eastland County, the scene of the great Ranger and Desdemona booms, and eventually your columnist turned out not one but four books about the romance of oil, besides a couple of articles on that subject in the Saturday Evening Post and also going to Hollywood to help write M-G-M's "Boom Town."

When William Jennings Bryan placed his speeches in book form, he chose as the foreword these lines by the Rev. F. S. Browning:

"I do not know
Where falls the seed that I have
tried to sow
With greatest care;
But I shall know
The meaning of each waiting
hour below
Some time, somewhere!"

In a copy of the book in Memphis' Cossitt Library, some reader wrote, "In the hearts and minds of men, Mr. Bryan."

When Joe Curtis wrote his description of El Dorado's oil excitement, it was, to him, just another assignment in the busy life of a good newspaperman. He wrote it and dismissed it from his thoughts. But, as you have seen, that article had far-reaching consequences insofar as the life of one reader was concerned.

No doubt, if we had any way of knowing, Joe Curtis, in his long and active life of writing, has sowed similar seed in the hearts and minds of many men. Like "old man river," he "just keeps rolling along."

IT HAPPENED IN COURT

A lawyer was examining the witness.

"You say you had no education," he said abruptly, "but you manage to answer my questions smartly enough."

"Well," answered the witness calmly, "you don't have to be a scholar to answer silly questions."

Discipline is learned by every man during his first six weeks in the army and his first six months of marriage.

Canyon, Texas

Governor Allan Shivers accepts the specially decorated instrument commemorating the two-millionth Southwestern Bell telephone installed in Texas. Telephone is at lower right of picture. The telephone was presented by Walter L. Prehn, right, general manager for the telephone company in Texas. At left are District Managers I. W. (Stormy) Davis of Austin and Ed Gossett, former congressman from Texas who is now general attorney for the telephone company.

A handsomely decorated telephone commemorating the installation of the two-millionth Southwestern Bell telephone in Texas was installed in the office of Governor Allan Shivers in the state capitol building in Austin on April 7.

The commemorative telephone marked a significant milestone in the history of the telephone in Texas, and for this reason and because of the location of the telephone, it was appropriately ornamented by the company before its presentation.

The instrument was decorated with a reproduction in gold of the state seal of Texas mounted in the center of the dial, and reproductions of seals or coats of arms of governments whose flags have flown over the Lone Star State in its colorful history. These are Spain, France, Mexico, Republic of Texas, the Confederate States of America, and the United States.

Presenting the commemorative instrument was Walter L. Prehn of Dallas, general manager of the telephone company for Texas, who was accompanied by Austin District Manager I. W. (Stormy) Davis, and Ed Gossett, former Texas congressman who is now general attorney for the company.

Installation of the two-millionth telephone came seven and a half years after the millionth telephone was installed in Houston in August, 1947. This instrument was placed in the home of Mr. and Mrs. Gunter W. Koetter.

Governor Shivers made the first official call on the commemorative instrument to President Edwin M. Clark of the telephone company in St. Louis. His second call went to Mrs. Koetter, subscriber for the millionth telephone, who still lives in Houston.

An interesting sidelight of the ceremony is that at the time the millionth telephone was installed Mrs. Koetter, a war bride from Luxembourg who had recently come to this country, had a small son, Jay, 14 months old. Since that time the baby has grown into a small boy of nearly 9, and has acquired a sister who is almost 7, and a brother now nearly 2.

The telephone has come a long way in Texas to reach the two millionth installation. The first two telephones in the state were installed in Galveston on March 18, 1878, connecting the home of Col. A. H. Belo, publisher of the Galveston News, and his editorial office.

Sixty-nine years passed before Southwestern Bell installed the millionth telephone, but the second million was installed in only seven and a half years.

If people do not know the good you have done it is a waste of time to tell them.

HUNTING MATERIAL

The Soph — "How do you pronounce your name, sir?"

The New Professor — "My name is Ticklefeather — pronounced just as it is spelled."

The Soph — "Thanks, I'm chairman of a class committee on yells, and I'm looking for something that sounds ridiculous to put into a new one."

QUAINT REMARKS

A woman went to spend a week end with a friend. As she was preparing to retire, the hostess appeared at the door.

"If you should want anything that you haven't got," she said, "just ask for it. We can show you how you can do without it."

The Navy uses helicopters to sweep mines safely.

Soil in the Kansas area is going with the wind again.

News In Canyon 25 Years Ago

(Taken from the files of The Canyon News of April 17, 1930)

Building permits were issued for the construction of the First Christian Church and the elevator now owned by the Consumers.

Mrs. Ardelle George, wife of Chamber of Commerce Secretary L. N. George, brought her Hereford Municipal Chorus to Canyon for a concert.

Plans were made at the meeting of the Panhandle-Plains Historical Society to start work on a museum building. Judge H. E. Hoover of Canadian pledged \$1,000 for this work.

The city of Claude announced its population as 1,035 under the new 1930 federal census. Mrs. C. R. Flesher is taking the census of Canyon, and reports that she is just about half finished.

W. J. Wooten operated Sunday movies last Sunday, and was arrested by John Fry. The trial was set for next Monday. (Wooten was found not guilty).

MUSIC

Music is a friend of labor; it lightens the task by refreshing nerves and spirit. —William Green

Music is a discipline, and a misorder of order and good manners, she makes the people milder and gentler, more moral and more reasonable. —Martin Luther.

Mental melodies and strains of sweetest music supersede conscious sound. Music is the rhythm of head and heart. —Mary Baker Eddy.

Music washes away from the soul the dust of every day life. —Berthold Auerbach

Of all the cultural forms of entertainment the most widespread and most spontaneous participation is gained through song. —Earl Robinson

The trouble with music appreciation in general is that people are taught to have too much respect for music; they should be taught to love it instead. —Igor Stravinsky

MAGGIE McKENZIE, popular radio star of KGNC says, "Every woman knows light Karo is best for cooking . . . and on the table . . ."

it's Karo for me, the best-tasting waffle syrup of 'em all"

Yes, indeed . . . biscuits go like hot cakes when you pour on plenty of delicious Karo waffle syrup. There's nothing like it for good eating. Satisfyin' flavor. So rich it stands right up on top of biscuits (keeps 'em light and fluffy). Keep Karo on your table morning, noon and night . . . it tops anything!

Ask your grocer for Karo waffle syrup, in pints and quarts

Engaged

HAZEL ANNETTE TOOLEY

WOMEN'S BOWLING LEAGUE

Young's Drive-In still has a 13 game lead as top team in the Canyon League of Women Bowling Teams.

On Monday they took three games from Cooper's Market with Zula Culwell rolling 189. Fay Bosley with Cooper's had a good game of 195.

Ruth Bednorz with a 146 point score led Fritz Gult to take three games from Canyon Drug even though Ruth Shero rolled 159 on the loser's side.

Mrs. J. D. Price of Plainview spent Saturday night with her mother, Mrs. W. S. Myers. Mrs. Price was enroute to Alabama.

Air cargo income may attain passenger level.

Consumer income in 1955 found to be the same as in 1954.

CITATION BY PUBLICATION THE STATE OF TEXAS

To: S. P. Butler, and the unknown heirs, devisees, legatees, and legal representatives of S. P. Butler.

GREETING: You are commanded to appear and answer by filing a written answer to the Plaintiff's Original Petition at or before 10:00 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 6th day of June, A. D. 1955, at or before 10:00 A.M. before the Honorable 47th Judicial District Court of Randall County, Texas, at the Court House in Canyon, Texas.

Said Plaintiff's original petition was filed on the 19th day of April, A. D. 1955. The file number of said suit being No. 2930. The names of the parties in said suit are:

James Guy Conner, Mrs. Ernee Conner Herrell, joined herein by my husband, L. D. Herrell, and Mamie C. Bradford, joined herein by my husband, S. C. Bradford, PLAINTIFFS, and S. P. Butler, and the unknown heirs, devisees, legatees, and legal representatives of S. P. Butler, DEFENDANTS.

The nature of said suit being substantially, as follows, to wit: A suit in Trespass to Try Title involving the following described land:

Being a part of Section Thirty-three (33), Block B-5, H&G.N. RR. Co. Survey, Randall County, Texas, and more particularly described by metes and bounds as follows:

Beginning at a point 2800 feet North of the Southeast corner, Section 33, to a point in the East line of Section 33, Block B-5, H&G.N. RR. Co. Survey, for the Southeast and beginning corner of this tract.

Thence: West 360 feet to a point Thence: North 190 feet to a point Thence: East 360 feet to a point in the East line of this section Thence: South 190 feet to the place of beginning

and being the same land which had been formerly dedicated and which was later turned back into acreage, to-wit:

All of Lots Nos. Seven (7), Eight (8), Nine (9), Ten (10), Eleven (11), Twelve (12), in Block No. 20, as shown by the plat of Conner Addition to Canyon City, Randall County, Texas, including one-half (1/2) of the alley along the North side of said lots and one-half (1/2) of the streets adjacent to said lots.

Plaintiff further affirmatively pleads the three, five, ten, and Twenty-five year Statutes of Limitation for and such other and further relief to which he may be entitled upon trial of this cause.

If this Citation is not served within 90 days after date of its issuance, it shall be returned unserved.

WITNESS, Mavis Hill, Clerk of the 47th Judicial District Court of Randall County, Texas.

MAVIS HILL, Clerk, 47th Judicial District Court, of Randall County, Tex. ISSUED this the 19th day of April, 1955.

GIVEN under my hand and seal of said Court at office in Canyon, Texas, this the 19th day of April, A.D. 1955.

MAVIS HILL, Clerk, 47th Judicial District Court, Randall County, Texas (SEAL)

NOTICE OF BUDGET HEARING There will be a public hearing on the 1955-1956 City of Canyon Budget, March 28, 1955, at 3:00 p. m. at the City Hall, Canyon, Texas. Hosea Foster, Mayor.

Attest: C. D. Bayne, City Secretary

Cooper's MARKET

Fine Foods

Fish on Markets Have Increased In Their Numbers

COLLEGE STATION: Few food shoppers realize how many varieties of fish are available on the market.

From salt cod to caviar, there are fishery products to fit any budget. Mae Belle Smith, Extension specialist in consumer education, says although there are only about seven species of fish well known to the average person, there are about 200 varieties sold in the United States plus about 40 varieties of shellfish.

Regardless of price, fish from both salt and fresh water contribute generously to nutritional needs. As protective foods, they provide high-quality protein as well as essential minerals and vitamins.

Ask the dealer what species of fish and shellfish he has. There may be some kinds unfamiliar that are good buys. Select fresh fish that have bright, clear, moist eyes; firm elastic flesh; fresh red gills, not gray or brown; scales with a sheen that cling closely to the body and the color of the entire fish be bright and clear, not faded.

Select fish in hard frozen packages which are carefully wrapped and displayed in a frozen food cabinet. The wrapping should be of moisture-vapor-proof material. There should be little or no air space between the fish and the wrapping.

Servings of fish are usually based on one third to one half pound of edible fish per person. Miss Smith states that to provide

this the approximate amounts to buy of different forms are: fillets, steaks or sticks allow one-third pound; dressed fish one-half pound and whole or round fish allow one pound.

SPRING SETTING FOR VARIETY RING MEET WITH MRS. BARKER

With entertaining rooms decorated with beautiful bouquets of stock and daffodils, Mrs. Modena Barker was hostess to the Variety Ring on April 7.

Mrs. Eula Bee Harding, president, brought the thought for the day: "To have a friend is to be one."

Roll call was answered with each member giving her favorite spring flower.

For the program a flower and tree quiz was conducted and an Easter poem was read.

Members voted a \$2.50 donation to the Library Book Fund.

Lovely refreshments carrying out the Easter motif were served to Mesdames Crosby Hammons, guest, Harding, Jewel Marshall, Roxie Hammons, Mary Hutchison, Lydia Matsler, Mae Johnson, Rae M. Walters, Estelle Rise, members. Mrs. Harding will be hostess on April 21 at 2:30 p. m.

SOUNDS THAT WAY

Teacher: Johnny, who was Anne Boleyn?

Johnny: Anne Boleyn was a flat-iron.

Teacher: What on earth do you mean?

Johnny: Well, it says in the history book, "Henry, having disposed of Catherine, pressed his suit with Anne Boleyn."

Buy, Build, Live in Canyon!

A&M College Finds New Way for Calves

COLLEGE STATION: Dairymen can get their calves off to a faster, safer start and save money, too, by using a new discovery by a Texas A. and M. College researcher.

Prof. R. E. Leighton of the college's Dairy Husbandry Department has found a new additive for milk replacer formulas which provides needed fat and at the same time prevents scours resulting from nutrition causes. The material is a fatty ester derivative taken from a by-product of vegetable oil refining.

Professor Leighton's whole formula is made up of materials available from feed dealers, and is simple enough to be mixed at home. It keeps well in fairly good feed storage areas. The original formula—without the anti-scour additive—is included, along with instructions for mixing and use, in Progress Report 1710 of the Texas Agricultural Experiment Station.

Feeding a calf whole milk costs the average dairyman about 50 cents per calf per day. Feeding the same calf the formula—with the anti-scour additive—costs about 15 cents per day; and the switch from colostrum milk to the milk replacer can be made abruptly. Calves gained better and more steadily on the old formula than on whole milk. Growth studies are under way using the new formula.

As Professor Leighton now uses the formula, it includes: 55 pounds of dried skim milk; 35 pounds of dried whey; 10 pounds of the anti-scour additive; one pound of an antibiotic source, and 100 grams—about one-quarter pound—of stabilized Vitamin A source per hundred pounds of mix.

PILOT TRAINING

An all-out Federal training program to prevent the United States from becoming a nation with thousands of planes and no pilots has been urged by the Civil Aviation Medical Association. Dr. Gerald S. Bakentoe, association president, warned that the current shortage of pilots was "appalling" and "the greatest problem in the nation today." If it is not solved, he says, the nation's defenses will be in a bad way.

VITAL STATISTICS

The U. S. Public Health Service reports that the year 1954 saw the lowest death rate and the large number of births in the nation's history. Births passed the 4,000,000 mark for the first time, with a 25.2 per 1,000 persons birth rate and infant deaths at an all-time low of 26.6 per 1,000 live births. The death rate from all causes in 1954 hit a record low of 9.2 per 1,000 population.

AN ORDINANCE OF THE CITY OF CANYON PROVIDING FOR SUMMARY DISPOSAL OF UNLICENSED AND UNVACCINATED DOGS FOUND RUNNING AT LARGE WHICH CANNOT BE CAUGHT, AND DECLARING AN EMERGENCY.

WHEREAS, the governing body has determined that dogs running at large whose owners have not complied with the ordinance of the city requiring such dogs to be vaccinated and licensed constitute a menace to the public welfare; and,

WHEREAS, the public welfare requires that whenever hydrophobia occurs or is suspected of occurring within the city, precautionary measures should be taken and that as a precautionary measure it is necessary to catch and dispose of dogs that have not been vaccinated and licensed according to the ordinance of the city; and,

WHEREAS, it is impossible for the persons charged with the responsibility of disposing of such unlicensed and unvaccinated dogs to catch all of such dogs found running at large and it is necessary, therefore, to provide for an effective means of disposing of the unvaccinated and unlicensed dogs found running at large that cannot be caught; now, therefore,

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF CANYON:

SECTION 1: It shall be lawful for the Chief of Police of the City of Canyon or the sheriff of Randall County, Texas, or any deputy sheriff of Randall County, Texas, to dispose of unlicensed and unvaccinated dogs found running at large in the City of Canyon by shooting such dogs with a shotgun under such circumstances and in such a way as not to risk any danger to life or property in carrying out such shooting. Such officer or officers shall first determine that it is impossible to catch such dog or dogs with the means at their command and if such dog cannot be caught, then the officers named herein are authorized to proceed to dispose of such dog or dogs by the method set out herein. Such officer or officers shall not use any rifle or pistol in disposing of such dogs but are confined to the use of a shotgun.

SECTION 2: The fact that dogs now running at large that are not licensed and vaccinated and that cannot be caught causes a continuing threat of hydrophobia constitutes an emergency and requires that this ordinance be passed as an emergency measure to become effective immediately.

INTRODUCED AND UNANIMOUSLY PASSED as an emergency measure on this 12th day of April, 1955.

Mayor Hosea Foster

ATTEST:
C. D. Bayne
City Secretary

Fires on Farms To Be Lessened

COLLEGE STATION: Now is the time to get rid of the winter's accumulation of trash and junk. Nature is replacing winter's bleak landscape with the soft green of renewing life of spring and needs your cooperation to complete the job.

If every farm family would conduct a cleanup campaign at home—inside and out—it would help eliminate fire and accident hazards, make home a safer place to live, and result in happier and more productive workdays, says the Texas Farm and Ranch Safety Committee.

Farm fires take a heavy toll of life and property each year in the nation, about 3,000 lives and \$139,000,000 worth of property. Both figures could be reduced, believes the committee, with good "housekeeping." Cleaner farms will mean fewer fires.

Inspection, they say, is the first step in fire prevention. Remove the hazards which may cause fires and accidents and ask the neighbors to cooperate in a community cleanup campaign.

Secondly, points out the committee, stop taking fire risks. Careless smoking habits and the misuse of matches are major causes of fire. Oil, kerosene, gasoline or other flammable liquid should never be used for starting or boosting fires in stoves, ranges or fireplaces. Be sure flammable liquids are safely stored and away from farm buildings.

During the cleanup campaign if trash is burned, pick a still, damp day for burning and have help and equipment handy in case it is needed. Then be sure the fire is out before leaving it unattended.

The committee believes the dollars spent for fire extinguishers and other needed fire fighting equipment is a mighty good investment and would like to see every Texas farm family trained in their use. Finally, they say, give everything a place and then keep it there... that's good "housekeeping."

Approximately 39 out of every 100 families in the nation expect to be making more money in another year, while 6 per cent expect a drop in income, according to a report by the Federal Reserve Board. The survey also showed that the buying public plans to spend more for houses, furniture and appliances in the coming year. Fewer families plan to buy new cars, but they expect to pay more for those they buy.

Increase Size of Flocks Advised

COLLEGE STATION: Egg producers who seek efficiency in the laying house are advised to have flocks of 1,000 or more hens.

"Efficiency increases with flock size," says Ben Wormeli, extension poultry husbandman. "There is a definite need in Texas for increasing flock numbers to more economical units — to at least 1,000 layers."

Stay in business in both good and bad years, he advises. Only increased commercial production and fewer backyard producers will stabilize the state's fluctuating egg market.

When eggs make favorable returns one year, there is a tendency for backyard producers to jump into business the next. Although there is only a slight upsurge in

production, it is enough to put prices on the skids, Wormeli explains.

In Washington

By PRICE DANIEL
U. S. Senator

The Senate recently took notice of the fifth anniversary of the National Muscular Dystrophy Research Foundation which was founded in Liberty, our home town. The two young ladies who started this organization, Sallie and Nadine Woods of Liberty, both suffering from muscular dystrophy, originated the idea of the national organization in 1950. They have worked over the years to bring the plight of the sufferers of this dread disease to the attention of the public and the medical profession. The results of their labors have been evident in the amount of research work that has been accomplished. The work presently being done will not help those who have had the disease for any length of time, but the main object is to provide relief for persons who might otherwise suffer in the future. Mrs. Dwight D. Eisenhower is honorary president of the foundation and Roy Rogers and Dale Evans, along with Governor Allan Shivers, Ed Sullivan and the writer, serve as sponsors.

Easter Vacation

Both houses of Congress took Easter vacations for the first time in several years. The House of Representatives usually recesses for several days during the week of Easter, but the Senate has been taking only the week end. This time both houses decided to give as much attention to this religious holiday as is given to some of the other holidays during the year.

It may be a result of the general revival in spiritual and religious interests here in Washington and throughout the country. Both religious and political leaders agree that there is more emphasis on the spiritual side of life in the nation's capital than heretofore witnessed in modern times.

There is a weekly prayer breakfast held by the Senate members on Wednesday mornings and by House members on Thursday mornings. These groups meet for breakfast at 8:30, and then one member leads in prayer and a devotional discussion which is joined in by other members of the group. There are other prayer groups which meet weekly in various administrative agencies of the government. Having attended the meetings of the Senate prayer group since coming to Washington, I know that these meetings are a great inspiration to those who are attempting to serve here in the capital.

Narcotics Investigation

Under appointment by Senator Kilgore of West Virginia, Chairman of the Senate Judiciary Committee, the writer will serve as chairman of a subcommittee to investigate the narcotics racket in the United States. The Senate recently ordered the investigation by adoption of a resolution which I introduced earlier in the session. Other members of the subcommittee are Senator Joseph C. O'Mahoney of Wyoming and Senator Herman Welker of Idaho. We will conduct hearings in those states where the narcotics problem has been most acute and will then recommend to the Senate appropriate legislation which might help end or reduce this vicious traffic in dope and human misery. Congressman Homer Thornberry of Austin introduced a similar resolution in the House, but in view of the prompt Senate action, he has kindly offered to cooperate with our committee to accomplish the work and results so necessary in this field.

Our Judiciary Committee has already developed conclusive evidence that Communist China is the

principal source of heroin, and that the leaders of Red China are encouraging the manufacture and export of narcotics both for financial gain and demoralization of countries in the Free World.

Farm Bulletins

There are many farm bulletins and other publications of interest to farm families available for distribution by members of Congress. These cover a variety of subjects from "Home-made Jellies, Jams and Preserves" to "Farmhouse Plans for Minimum Budgets." Some of them appear to contain useful information, while others seem to be a waste of the taxpayers' money. You can be the judge if you will write me for a list of the publications. Simply write me that you read about this in your local newspaper, and I will send a list of the publications from which you may order any that you may desire. They are already printed and can be mailed without any additional cost to you or the government. Some of the publications will be of special interest to Texas farm families.

Also, two other publications of which we still have a small supply are "Infant Care" published by the Department of Health, Education and Welfare, and a recipe bulletin entitled "Family Fare." As long as they last, we will send copies to those who might think them useful.

Interlining Wills Is Not Legal Says State Authority

Changing and revoking wills has involved many an estate in litigation because the proper legal methods were not used and the statutes were not followed.

Take the case of Mr. S. Some time ago he went into his lawyer's office and laid in front of his attorney a will which had been prepared for him about a year previously. He said that he had made a few changes in it and wanted to know whether his attorney thought the changes were all right.

Mr. S. was attempting to change two items of his will by drawing lines through certain words in these items and interlining, in his own handwriting, the changes he wanted. He was not attempting to revoke his entire will but merely trying to change these two items.

If Mr. S. were to die with his will in that condition, the probate court would not recognize the changes that he had made, but would probably probate the will as it was originally written. Mr. S. was surprised to learn this and immediately requested that a new will be prepared.

After the will has been once executed, changes cannot be made legally by crossing out parts of a will and interlining corrections or additions. To change a will, an entirely new will must be written and properly executed or an addition by way of a codicil should be executed.

Since a will does not take effect until the death of the person making it, the provisions of the will should be reviewed by the maker at least once a year to be sure

that changing conditions and circumstances have not been such as to require a modification of the will. It is very easy to postpone doing a thing of this kind, but failure to do so may result in the intentions of the maker of the will being thwarted to a certain extent.

There are many changing circumstances which would be brought to his attention if a person would review his will at least once a year in the light of circumstances at the time.

Such things as deaths among the legatees or devisees named in his will, births, marriages or divorces in the family, accidents or sickness among the close relatives which make it desirable to increase or decrease the amount given certain ones, substantial increase or

decrease in the value of the estate of the person making the will, death of all witnesses to the will and many other factors, may cause a person to want to execute a new will or add a codicil to his old one.

A free pamphlet containing useful information on wills and related matters may be obtained by sending your name and address on a postcard to State Bar of Texas, Colorado at Fifteenth, Austin 1, Texas.

He who feathers his nest dishonestly should plume himself for a flight.

Any question settled by force invariably comes up for re-settlement.

FOR VARIETY

A man was running along the street, shouting at the top of his voice, "No! No! Certainly not!" A policeman stopped him and said, "Here, you! What's the idea?" "It's all right, officer," was the reply, "I'm a 'yes' man on a holiday."

A DIFFERENT MATTER

Said the visitor to the office manager: "That new clerk of yours seems a hard worker." "Yes," sighed the manager. "That's why we're letting him go." "What — for working hard?" "No — for seeming to."

Profanity is seldom a convincing argument except to the man who practices it.

No man can pull the wool over a woman's eyes without using a mighty good yarn.

Success is just a good idea coupled with hard work.

A Tribute To Friendship!

Through the years, as we learn to evaluate people and personalities, we find that enduring friendships are one of life's precious jewels. What is more comforting than a treasured visit with someone to whom you can be just your natural self! Do you know what the definition of a friend is? It is a person who knows all your faults but still likes you, in spite of them. None of us is free from faults. That is only human. So we gravitate to those who like us and who, in turn, we think rather special. Let's cherish our friendships and make the most of them . . . lest auld acquaintance be forgot!

Why Trop-Artic Oil Can Double Engine Life

IT'S PERFORMANCE THAT COUNTS!

Some motor oils give good protection at low temperatures. Other oils are effective at high temperatures. But new TROP-ARTIC All-Weather motor oil gives protection at all temperatures, from below zero to extremely high heat.

So it's easy to see why TROP-ARTIC is so much better than ordinary motor oils at preventing engine wear . . . so much better that it can even double engine life. TROP-ARTIC lets you start easier . . . saves you gasoline . . . and can save 15% to 45% on oil consumption.

Phillips 66 TROP-ARTIC is the first all-weather oil to meet the highest standard ever established for automobile motor oils . . . the Mil-O-2104 Supplement 1 Test.

Get new TROP-ARTIC Motor Oil from your Phillips 66 Dealer. Remember, it's performance that counts!

Six Colleges To Send Rodeo Teams to Meet

The top collegiate performers of the Southwest will be on display Friday and Saturday at West Texas State College's annual rodeo, sponsored by the T-Anchor Club.

Six colleges, in addition to the host school, have indicated they will furnish talent for the inter-collegiate championship affair. Expected to be represented are Texas Tech, Hardin-Simmons, Sul Ross, New Mexico A&M, Eastern New Mexico and Odessa Junior College.

One of the best-known cowhands in this area already has mailed in his entry blank. Lee Cockrell, Pampa, who won all-around cowboy in the recent Amarillo rodeo, will represent Texas Tech. Many of the entrants are Rodeo Cowboy Association members.

There will be two go-rounds of competition in six events—saddle bronc riding, ribbon roping, bareback riding, bull riding, bull dogging and calf roping. Special events will include girls' goat-tying and barrel race.

Prizes will be prorated from entry fees for both go-rounds. Holders of best average times will receive trophy buckles.

Three performances will be offered. There will be matinees at 2 p. m. Friday and Saturday and the final show is scheduled for 7:30 p. m. Saturday. Admission will be \$1 for adults and 60 cents for students and children. However, tickets purchased before Fri-

day will sell for 75 and 50 cents. They are available at the Aggie Building on campus.

Rodeo stock will be furnished by Lloyd Whitledge of Sweetwater, Okla. The college arena is located north of Conner Hall, just off Highway 87.

Cornette and Dean Russell to Meeting

Dr. James P. Cornette, president of West Texas State College, and Dr. James L. Russell, graduate dean, will attend a conference Friday and Saturday of the Southwestern Cooperative Program in Educational Administration.

The organization includes educational institutions in Arkansas, Texas, Oklahoma, Colorado, and New Mexico. Dr. Cornette will be a reporter for a session on "Needed Research on the Job and Qualifications of School Administrators." Dr. Russell is a moderator for one of the planned programs.

ALL SAINTS GUILD MEETS

All Saints Episcopal Guild met Thursday evening, April 14, in the Little House of Fellowship with Mrs. Frank Kimbrough as hostess.

Mrs. Edwin Pettitt gave the devotion. Her subject was "How to Pray about Your Problems" by Norman Vincent Peale.

Members voted to accept an invitation from the Amarillo Auxiliary to attend an open meeting to be held in Amarillo May 4th. At that time Rev. Lawrence Cantrell of Gallup, N. M., will speak on "Indian Missions."

AMITY CLUB STUDIES FLOWERS AT MEET WITH MRS. PAYTON

Opening in regular form the Amity Club met in the home of Mrs. J. I. Payton Friday devoted time to the study of growth of flowers.

Roll call was answered with some comment on flower care. Then Mrs. W. T. Davis gave quite an interesting review on the different leaves and bloom of flowers and suitability in different parts of Texas. Members brought plants for exchange.

Lovely refreshments of cake with whipped cream, sandwiches, nuts and mints were served by the hostesses Mesdames Payton, Davis, Cox, and Wright to Mesdames Gill, Cone, Dowd, Wester, Lowry, Burtz, Terry, Harden, Fain, and Danner.

Next meeting will be in the home of Mrs. Cone on May 20.

CLASSROOM TEACHERS MEET

At the recent meeting of the Classroom Teachers of Canyon public schools delightful piano selections were given by Miss Betty Evans, senior at West Texas State.

Highlight of the evening's program was an especially interesting and entertaining review of "Good Morning, Miss Dove" given in her ever-pleasing way by Miss Elva Fronabarger.

Refreshment committee for the evening consisted of Mesdames Irene Ball, Huvelle Brasher, Irene Beard, Betty Ross Howard, Miss Carter, Messrs. Herman Demus and Waylon Carroll.

CANYON MOTHER-IN-LAW CLUB MEETS IN HOME OF MRS. ROSE

The Canyon Mother-in-Law Club met in the lovely new home of Mrs. G. W. Rose, west of the city, on April 14. Serving as co-hostesses with Mrs. Rose were Mesdames T. V. Slack, I. M. Steen, W. I. Wester, and E. C. Penick.

In the absence of the president, Mrs. W. I. Wester, vice-president, opened the meeting and was in charge of the business session.

Meeting opened with the singing of the club theme song, "Silver Threads Among the Gold," by the group.

Mrs. M. E. Cleavinger gave the devotional and prayer.

Mrs. Isabelle Dickinson told of the world's largest wonder residence, Winchester Mystery House, which is located seven miles out of San Jose, Calif. This house, Mrs. Dickinson reported, has 162 rooms and covers five acres.

Delicious refreshments were served at the social hour to Mesdames Mary Duggan, Lewis Harvey, J. C. Dowd, and Fred Marshall, guests, and Isabelle Dickinson, E. Gidden, C. W. Dunn, E. C. Hawes, Addie Hefner, T. T. Fain, R. D. Lowry, Mary Croson, W. S. Myers, M. E. Cleavinger, R. T. Bowman, Mary Burtz, Tommy Burgess, and the hostesses, members.

PLEASANTVIEW H. D. C. MAKES TOUR OF J. W. HILL FURNITURE

On Thursday, April 14, the Pleasantview Home Demonstration Club had in place of their regular meeting a tour of J. W. Hill Furniture Company in Amarillo.

Members and guests were shown interesting slides of home furnishings and how to pick carpets suitable to the individual homes.

Fifty cents was paid each member, and each guest to be used in the club fund. Each member had been asked to bring at least one visitor.

There were 33 present and each expressed appreciation and pleasure for the tour.

Broilers and Fryers Plentiful

COLLEGE STATION: Rising spring production returns broilers and fryers to the plentiful foods list for the first time this year.

Raisins also are highlighted on the U. S. Department of Agriculture's May list of abundant foods.

After the regular monthly survey of food stocks in this area, the USDA has found that supplies of more than a dozen items are large enough to rate a position on May's list.

They include: beef, pork, canned tuna, frozen halibut fillets, milk and other dairy products, rice, small size prunes and vegetable fats and oils.

Only fresh fruits for May are oranges and grapefruit. Also, processed citrus products are in good supply.

All are lunatics, but he who can analyze his delusion is called a philosopher. —Ambrose Bierce.

Death of Mrs. S. L. Ingham Takes Another Pioneer Settler of Canyon

By Mrs. T. V. Reeves

When the news came on April 12 that Mrs. S. L. Ingham had died that morning, the community was at once keenly aware that the circle of pioneers who laid the foundations for the cultural development of this community in the early years of the century had again been diminished, for along with her husband, Dr. S. L. Ingham, the town's first dentist, she had come to Canyon in 1906.

Mrs. Ingham came of pioneer stock, having been born Ida Louise Grimes, daughter of a physician, Dr. Jacob Grimes and Megs Baker Grimes of Wapello, Iowa, in 1868. After graduation from Wapello high school she completed requirements for graduation at Iowa State Teachers College, in 1890. She then taught for four years in the public schools of Hampton, Iowa, where her ability as a pianist was an asset in both school and community affairs.

In 1894 she was married to Dr. S. L. Ingham. The Wapello paper in telling of the wedding said in the journalistic style of the time, "Wapello loses one of its most talented and charming young women, when Dr. Grimes' golden haired daughter leaves with her young husband to take up her residence at Hampton." Those who came to know Mrs. Ingham in the years that followed agreed with the small town paper.

Both Dr. and Mrs. Ingham were ambitious for Canyon when it became their home, and both were identified with civic and church and commercial affairs.

Mrs. Ingham, together with Mrs. C. R. Burrow, was instrumental in the establishment of the Woman's Book Club, and in connection with it the starting of what is now the Randall County Public Library. At first books were kept in homes. It is recalled that at one time the books were in a home in which a highly contagious disease developed. So, in keeping with medical advice of the time, the books were all carefully fumigated before going back into circulation.

The library has been a project of the Book Club every year since. Mrs. Ingham was a member of the committee which went before the Randall County Commissioners Court through which it received its first public support.

Perhaps, however, it was music which was the real heart of the contribution which "The Inghams" as they were affectionately called, made to the community. Dr. Ingham with his violin, and Mrs. Ingham as his accompanist, were a part of special church services,

of funerals, of school occasions, of many happy informal evenings in homes. Mrs. Clyde W. Warwick remembers that they played at her wedding. Others have mentioned the first orchestra in Canyon, and for pure fun there was the Kaffir Korn band of which they were a part.

Mrs. Ingham was for more than 50 years an active member of P. E. O., an organization which provided educational opportunities for young women; she was formerly active in the Eastern Star. She was a member of the Presbyterian Church and a part of the Women's Auxiliary. She was a member of several social clubs.

To carry on the Ingham tradition there are a son, Dr. George Grimes Ingham of Amarillo, a dental surgeon; and Charlotte Ingham Word, a talented composer and pianist of Clarendon; three grandchildren, Mrs. Bill Mathews of Miles City, Montana, who is the mother of Margaret Mary, Sharon, Barbara and Elizabeth; Roberson Ingham Word of Clarendon; Millard Lyman Word, father of David Brian, of Amarillo.

COLLEGE FACULTY WIVES TO MEET FOR INFORMAL COFFEES

On the morning of the second Tuesday of each month from 9:30 until 12 o'clock Mrs. James P. Cornette will be hostess to the wives of faculty members of West Texas State at an informal coffee in the president's home.

These coffee meetings are to be informal. "Just get-togethers" for better acquaintance with each other is the purpose. In these there is fun to meet and talk without a feeling of responsibility of programs and other involvements that a club would encounter.

The first meeting was held this month and a large number of the wives attended. With the privilege of coming at any time during the designated hours and staying as long as convenient and possible the women will be able to attend with a feeling of ease.

Mrs. Cornette is hopeful that all wives will attend as often as possible and everyone will have a good time.

PI CHAPTER DELTA KAPPA GAMMA OBSERVES 25TH YEAR

Pi Chapter of Delta Kappa Gamma celebrated its 25th birthday with a turkey dinner at the high school cafeteria in Amarillo April 16. Charter members and past presidents were honored.

Twelve tables were decorated to represent the months of the year and at each table were seated those having a birthday in that month.

Dr. Hattie M. Anderson and Miss Edna Graham were both charter members and past presidents and Miss Mae Simmons a past president. They were seated at the honorees' table.

Other Canyon members attending were Dr. Ima Barlow, Misses Darthula Walker, Ada V. Clark, Marilyn Alice Payne, Sara Thompson, Gladys Armstrong, Mesdames John Davis, Ed Harrell, Alma Perkins, and A. B. Holt.

Mr. and Mrs. Happy McAtee and sons spent from last Thursday until Monday visiting with Mr. and Mrs. Ed Brook in Cranville Gap and Mr. and Mrs. Rudy Griffiths in Waco. When they returned home, they brought Mrs. E. M. Brooks, Mrs. McAtee's mother, home to Hale Center from Cranville Gap where she had been visiting for a few weeks with her son and family, the Ed Brooks.

Pupils of Mrs. Demus To Give Formal Recital

Piano pupils of Mrs. Mary Helen Demus will present their formal spring recital Sunday, April 24, at the Branding Iron Theatre.

Program time will be 3 o'clock p. m. Interested friends are invited to attend.

Those appearing on recital will be Kathleen Miller, Jean Robinson, Karen Erwin, Margaret Louder, Johnny Sims, Frances Kiker, Patsy Robinson, Velma Lynne Larson, Karen Brewster, Barbara Erwin, Roy Neal Byrd, Suzanne Sims, and Sylvia Key.

MEMORABLE DRESSES IS TOPIC FAIRVIEW H. D. CLUB MEETING

Fairview Home Demonstration Club met Friday afternoon with Gerry Wise as hostess.

With the president in charge, reading of the minutes of the last meeting and roll call was made by the secretary.

Madge Sutton gave the council report and Theo Wise reported on the district meeting which was held at Spearman recently.

Each member told of some outstanding dress she had worn at one time during her life. Mrs. J. W. Wesley displayed some old clothes she has as keepsakes. Mrs. J. W. and Mrs. G. E. Wesley showed some old pictures.

Mrs. Mittie Wann of Tuolumne, Calif., and Mrs. Vivian Myers of Canyon were welcome visitors at this meeting.

Refreshments of lime sherbet, pimento cheese sandwiches and cookies were served to the two visitors and members. Mesdames J. W. Wesley, Charles Sutton, Gordon Foster, Frank Rogers, G. E. Wesley, Rayford Shipman, E. W. Schaeffer, Theo Wise, H. H. Shipman were the hostess.

DISTRICT FEDERATED CLUB MEETING WELL REPRESENTED

An estimated 400 women from federated clubs in District 7 attended the district convention on April 14, 15, 16 in the two and one-half million dollar high school building in Snyder.

Those attending from Canyon were Mesdames J. O. Parker, Sue Hite Club; Don Standley and Murphy White, Junior Woman's Book Club; Lee Foster and Miss Edna Graham, Woman's Book Club.

Mrs. Foster, a member of the District Board, had a prominent part on the program. She was official musician for the convention, moderator of the planning panel, and talked on pioneer personalities at the Texas Heritage breakfast.

Canyon Woman's Book Club received honorable mention for its outstanding work for the Canyon Public Library.

MRS. EDD REYNOLDS HOSTESS PALO DURO-RUSK H. D. CLUB

Palo Duro-Rusk Home Demonstration Club met Tuesday, April 12, with Mrs. Edd Reynolds.

Mrs. Charles Wilkinson, vice-president, conducted the meeting which opened with the recognition of a visitor, Mrs. Cape Cowart from Chicago.

The group sang songs and Mrs. Ralph Barclay gave the opening exercise. Mrs. Charles Conatser gave the council report and the treasurer's report. A Pot Luck Supper for members with their families and friends was planned for April 23 at 7 p. m. in the home of Mrs. Dick Lowery.

At the social hour refreshments were served to Mesdames Barclay, Conatser, Bill Dugan, Clem Dugan, Lowrey, Douglas Marshall, Earl Reynolds, Wilkinson, Pete Cowart, Cape Cowart, C. F. Marshall, Bob Dawson, and the hostess.

TOWN AND COUNTRY CLUB MEETS WITH MRS. TOM LAIR

The Town and Country Club met Thursday afternoon in the home of Mrs. Tom Lair. "42" was played at two tables.

Lovely Easter refreshments were served to Mesdames Grace Costley, Esther Olson, Albert Byars, John Cook, Harley Burrus, M. B. Brown, Jack Foster, L. L. Campbell and visitors, Mrs. Avert Lair and children and Mrs. Bob Gatten and children.

Bibles Bought For Indian Missions

Rev. and Mrs. Curtis Strader, Barbara Lewis, Ann Snapp, Barbara Beck, Richard Oakes, and Harold Henderson drove to Farmington, N. M., where they visited the Navajo Methodist Mission and presented them with \$125 which the Methodist Student Center had raised to buy Bibles.

They also presented the mission with 47 Student Fellowship song books. Pictures of the Mission were taken which will be shown at the Methodist Student Center.

J. D. Barker returned Friday from Pasadena, Calif., where he visited in the home of his brother. He visited with Mr. and Mrs. S. C. Bradford. Mrs. Bradford is the former Mamie Conner, first white child born in Randall county. Mr. Bradford is president of a bank in Pasadena.

Max Bellah left Wednesday for the West Coast to embark for Japan where he is assigned for duty.

Recently, newspapers told of a certain Illinois woman's having her successor jailed for alienating her husband's affections. Seems she won a \$25,000 judgment in court against her rival. When the second Mrs. couldn't pay, the first Mrs. paid costs for having her languish in jail.

We certainly don't know who's right and who's wrong in the matter, but we do wonder what the first Mrs. has to gain. Her present behavior automatically throws public sympathy to the sweet young thing who is being tortured by a jealous old hen.

Furthermore, she has already lost her man, and this will hardly win back his favor. In fact, if he thought enough of the second woman to marry her, he's not going to be exactly touched by proof of the first wife's cruelty.

A much better role, it seems, would have been that of injured innocence. It would have made the erring husband look and feel like a heel, might even have made Wife Number Two appear a designing seducer, would have won sympathy all around.

When and if our own spouse starts making eyes at another woman, we'll no doubt make as the first wife in this story. But we guarantee they won't be the same mistakes. If it's not too late, we'll try to see if we've measured up to the standards he set for a wife back in the days when he was really in love. And if things have gone along so far there's nothing we can do about it, be switched if we won't bow out with what little dignity there is left to us. The only life companion we can't think of who would promise less happiness than a man held against his wishes would be oneself with a hard knot of hatred where the heart ought to be.

P-TA Will Conclude Year's Program Thursday Evening

On Thursday evening at 7:45 o'clock the Canyon Parent-Teachers Association will meet in the high school cafeteria for the meeting that concludes the year's program.

Rev. Win R. Matsler will give the meditation. Music for the evening will be group singing under the direction of the music directors of the school.

A program that should prove to be exceeding interesting will be directed by Mrs. Dan Sanders who will lead a panel discussion on "We, The People, Secure the Blessings of Liberty, Through Individual Responsibility."

Members of the panel are Anna Marie Barker, Wanda Rogers, Faye Lowery, Jim Flynn, and Tom Wilbanks, all members of Mrs. Sanders' American History classes.

Highlighting the business session will be the installation of officers for the next year. Mr. and Mrs. Arthur C. Haley, Jr., will serve as president; Mr. and Mrs. Joe Frank, vice-president; Mr. and Mrs. Delbert Lowes, treasurer; Dr. and Mrs. M. S. Callahan, secretary; Mrs. Flora Phillips, historian; Dr. and Mrs. Crannell Tolliver, parliamentarian.

Chairmen of permanent committees will be announced at a later date.

Everyone interested in the school is extended a cordial invitation to be present.

Wayside News

After Sunday School Easter Sunday the different classes put on a good Easter program, after which Rev. Weathers filled the pulpit.

Mrs. Leroy Roberts, Mrs. Melton McGehee, Mrs. Carol Dean Rogers and Mrs. Bill Allen attended the district THDA meeting at Spearman Tuesday.

Mrs. Joyce Lane visited with a friend in Gruver last Tuesday.

Mr. and Mrs. Charles Kennedy, Robert and Richard attended the wrestling matches in Amarillo on Thursday night.

Mrs. Guy Watson, Mrs. W. C. McGehee, and Mrs. Ira Schrib, Patsy and Nancy were Amarillo shoppers one day last week.

Those visiting in the W. R. Franklin home Easter Sunday were Mr. and Mrs. Roy Franklin, Kerry, Sudy, Sharon, and Sonny, and Mrs. Virgie Tucker and Miss Virginia Walker, all of Canyon. The children enjoyed an Easter egg hunt after dinner.

The date of the next Home Demonstration Club meeting has been changed from April 21 to April 22. The meeting place is the church at 2:30 p. m.

Mr. and Mrs. Charles Kennedy, Robert and Richard, motored to the Burson Lake near Silverton last Sunday p. m. They report it to be a pretty summer resort with fish in the lake.

Last word from Mrs. Bessie Lane was that she was basking in the Florida sunshine. She is visiting relatives there.

Mr. and Mrs. Artie Brawner and children of Amarillo enjoyed Easter Sunday in the Willie Modisette home.

Deanna Carrol Spann of Amarillo spent part of the week with her grandmother, Mrs. Viola Stockett.

Umbarger News

Mr. and Mrs. John Batenhorst spent Sunday in the John Vorwald home.

Mr. and Mrs. John Klein and family, Leo Klein and girls spent the week-end in the Otto Prizlas home.

Mr. and Mrs. Anton Handing and family were dinner guests in the Mike Wieck home in St. Francis.

Mr. and Mrs. E. A. Stocker and family visited Mr. and Mrs. Al Evers and family Sunday.

Visitors in the John Wieck home were Mr. and Mrs. Ed Wieck and family.

Mr. and Mrs. Sylvester Batenhorst and family visited with Mr. and Mrs. Isidore Reinart.

Esther Ball, Tony Gerber, Mary Gerber visited with the Henry Gerbers.

Visiting with Elroy Arthos were Mr. and Mrs. L. A. Haschke.

Mr. and Mrs. Francis Friemel spent Sunday with Mrs. Hickman.

Mr. and Mrs. Ed Wieck and family visited the Joe Reinarts of Hereford.

Mr. and Mrs. A. Gerber, Otto Skarke visited with Mr. and Mrs. Ray Gerber.

Mr. and Mrs. Carl Kleuskens, Mr. and Mrs. Leonard Batenhorst spent Sunday in the Dennis Brandt home.

Visitors in the Elroy Artho home were Father Marthaler, Cecilia Friemel, Mr. and Mrs. Harvey Artho and family, Mr. and Mrs. Leo Artho and family, and Mr. and Mrs. Lee Haschke and family.

Mr. and Mrs. Ben Buecker visited in the W. P. Janssen home.

Exchanging visits were Mary Beckman with Peggy Albracht, Mary Buecker with Shirley Albracht, Margaret and Cecilia Friemel, Romilda Gerber with Betty Hoffman, Mary Albracht with Jo Ann Haschke, Bernard Buecker with Mike Raef, Jody Richardson with Billy Albracht.

A GOOD MAN TO KNOW

He is your qualified Local Insurance Agent, and a good man to know.
Like your doctor or lawyer, your Local Agent is a professional man whose success depends on his ability, experience and personal integrity.

His responsibility to you is four-fold:

1. He must know all about the kinds of insurance and the cost.
2. He must have a record in this community of selling and servicing insurance protection.
3. He must be capable of analyzing your needs and recommending the kinds and amounts of insurance that will give you the greatest protection at the lowest cost.
4. He must represent only carefully selected Capital Stock Companies with a perfect record of security, performance and dependability.

The Local Agents below meet these requirements. That's why you can be sure when you insure with:

Cole & Davis
Hosea Foster, Agent

Harden & Byrd
Steven & Blackwell

Returned Missionary Speaks Friday p. m.

QUENTIN SHORTES

Quentin Shortes, missionary to Guatemala, will be guest speaker at the Assembly of God Church on Friday, April 22, Rev. A. J. Pettit, pastor, has announced. Mr. Shortes will relate some of his experiences and will tell of the progress of Assemblies of God missions in Guatemala.

It was in 1949 that Mr. Shortes, with his family, went to Guatemala, where he has spent more than four years. He is under appointment of the Foreign Missions Department of the Assemblies of God with headquarters in Springfield, Mo.

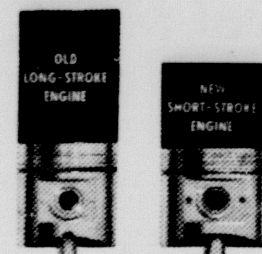

Mr. Shortes, traveling by muleback, worked among the primitive Indians and Latin people in the mountains and along the Pacific coast. He tells of entering a town that had no church of any denomination. During the five nights he preached there 36 were converted. Today in this village there is an organized church supporting its

LOOK UNDER THE HOOD!

The Eagle's Tale

29th Year

Published by The Canyon News for Canyon High School

Wednesday, April 20, 1955

Tribute to the Eagle

The great eagle, proud emblem of CHS, is one of which we can justly be proud. The eagle signifies the standards which have been built over the years and which we as students of '55 are building and seeking to sustain. The eagle is the sign of power, courage, and freedom.

As power the eagle is to be carried in our competitive matches with neighboring schools and in the classroom. It holds up the power to exemplify good sportsmanship, to do our best, and to keep fighting.

The Romans used the golden figure of the eagle on the tips of their spears or carried it at the head of a legion. One of its purposes was to remind men to be courageous. The symbol of the eagle meets us every day in our school reminding us to have courage to be honest, to stand for right even if left alone "to hold the fort" and to accept difficult responsibility.

Freedom is a virtue of America. In 1776 the United States took as our emblem the eagle, a bird of freedom. To CHS students, like-wise citizens of America, the "bird of the broad and sweeping wing" stands for our basic rights and the freedom to think, reason, and live in a democracy.

As the completion of the year of '54, '55 draws near, does a retrospect of the experiences of Canyon High School reveal that this spirit of the eagle has been upheld?

Safety First

Next Friday students and teachers will forget about the weighty cares of school life and enjoy themselves at the annual school picnic in the Palo Duro Canyons.

Teachers, administrators, class sponsors, room parents, and cafeteria helpers work hard so that we may have a good time at the picnic. They deserve our cooperation and appreciation. We should do all that is in our power to help them make this picnic a success. A few simple precautions could save a lot of trouble.

First of all, let's follow the instructions of our class sponsors to the letter.

Think before you act. If there is any doubt, don't act. One miscalculation could cause a lot of pain.

Let's respond to all signals promptly. Who wants to get left behind just because you couldn't be prompt?

This day could be the most fun or the most miserable day of the year. Why don't we all cooperate and make this the best school picnic ever.

Menus

Tuesday, April 19: Pinto beans, cabbage-pickle slaw, canned tomatoes, corn bread, butter, cookies, grapefruit sections, and milk.

Wednesday, April 20: Spanish rice, blackeyed peas, tossed salad, hot biscuits, fruit jam, and milk.

Thursday, April 21: Hamburgers, cabbage-pickle slaw, tomatoes, onions, ice cream, and milk.

Friday, April 22: Salmon patties, green beans, carrot sticks, bread, butter, and milk.

Monday, April 25: Meat balls, spaghetti, tomato sauce, broccoli, bread, butter, apple sauce cake, and milk.

SEESAW

Lady: Did you see that pile of wood when you came in?

Tramp: No, I didn't.

Lady: Oh, come now. I saw you see it.

Tramp: Well, maybe you saw me see it, but you aren't going to see me saw it.

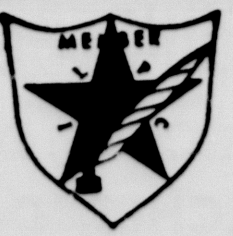

This old world has too many church members and too few Christians.

Only the poker player is happy when he has the blues.

The Eagle's Tale

Published weekly during the school term by members of the journalism class of Canyon High School. Published by The Canyon News for Canyon High School since 1925. Member of the Panhandle High School Press Association, Interscholastic League Press Conference, and Quill and Scroll. Winner of the 1952 PHSPA Community Service Award.

Jr. - Sr. Banquet Themes Reviewed

The theme for this year's Junior-Senior Banquet is unknown at the time this is being written, but if it lives up to the standard set in past years at Canyon High School it will be an interesting one. For many years song titles, poems, slogans, and far-away places have suggested interesting and unusual themes for this banquet.

The theme for the first Junior-Senior Banquet in the files of The Eagle's Tale was a "Gypsy Camp." The traditional waitresses from the sophomore class sang gypsy songs as they brought in the food. The place cards were black caldrons. Gypsy music on the program added atmosphere to the setting.

During the war years patriotic themes were the style as war bond sales invaded the school. In 1941 the theme was "Old Glory." Red, white, and blue were the colors used throughout the room, and flags and stars were the predominating figures. "Navy Blue and Gold" gave the juniors inspiration to decorate the room with gold ships and anchors with lighthouse place cards and candles decorating the tables at the 1942 party.

Perhaps Pearl Harbor created enough interest to inspire the "Night in Hawaii" theme for the 1943 banquet. Flowers filled the room, and multi-colored leis were given to the guests.

"A Southern Plantation" was the setting for the banquets in 1944 and 1952. A rose covered trellis furnished the background for the people in the receiving line who were dressed in southern costume. Rose covered trellises and roses running down the table were used to decorate the room.

The juniors of 1953 carried out their theme of "April Showers" by putting a huge rainbow at the back of the room with the pot of gold under it. A large window with a small bridge under it decorated the entrance.

Tulip beds, wooden shoe nut cups, and waitresses in Dutch costume were used to convert the cafeteria to the garden of a Dutch mill by the juniors in 1951 to carry out their theme, "A Little Dutch Mill on a Little Dutch Hill."

Student of the Week

Since entering CHS in the fall of '53 Marie Fort, an attractive senior, has made herself well known and liked. Showing her homemaking ability with never a moment to spare, Marie may be found sewing or planning an attractive outfit or tasty dish. After graduation this spring she plans to enter West Texas State College and major in homemaking. Marie is an outstanding member of the Rainbows, FHA, and Library Club. She was elected class reporter and Halloween Queen while attending Three Way High School her freshman and sophomore years.

To be an agriculture teacher is Jimmy Kuhlman's ambition. Jimmy plans to continue studying at West Texas State College and Texas Tech where he will major in agriculture and education. An active member of FFA, Jimmy showed his leadership early, being elected vice-president. Recently Jimmy showed a Holstein heifer in the Panhandle Plains Dairy Show at Plainview. With this exhibit he won second in the Junior Division. A member of the Livestock Judging Team, Jimmy placed second in beef judging at the Amarillo Fat Stock Show. He is an "A" student, taking four solids, holds membership in the Science Club and National Honor Society.

Mary Francis Dodson, a sparkling versatile senior, has been outstanding in various committees and organizations. After graduation this spring Mary Francis plans to enter San Jacinto Beauty School of Culture. She is continually experimenting with new hair styles on different types of faces. She realizes this important factor in becoming a beautician. An intelligent student that has many interests, Mary Francis takes four solids, of which art, a favorite subject, takes a great amount of her time.

Late Bulletin

A chance for a cedar chest awaits you at Sternberg Lumber Company, when CHS shop students exhibit some of the year's work Monday, April 25. Visitors who review the exhibit will register for a drawing the winner of which is awarded the cedar chest. Mr. Sidney Burgess, shop instructor at CHS, urges everyone to attend.

ARCTIC STORY

There were three bears. Papa, Mama, and Baby Bear, who sat down on the ice to tell stories to one another. Papa told his tale and Mama told her tale, but when it was Baby Bear's turn, all he could do was sit on the ice and say, "My tail is told."

The flying spirit of the courageous eagle, proud symbol of CHS, was carried by students in the District Interscholastic League meet April 16. Dovie Keene, senior, holds the large eagle beside the collection of golden trophies won by Eagles and Eaglettes in competition with other schools. This eagle has greeted scholars each day for many years from its perch above the main entrance.

Junior Class Honors CHS Seniors With Traditional Banquet, Prom

"May days, graduation time" was the theme of the annual Junior-Senior banquet and prom held Saturday evening, April 16, honoring the Canyon High School seniors.

Mr. Roy Bass, a prominent attorney from Lubbock, was the featured speaker on the program. In delivering his speech, Mr. Bass compared the main colors used in development of the theme to three dominant virtues of a happy life. He said that pink is characteristic of laughter, yellow symbolizes loyalty, and green stands for life itself. Mr. Bass determined all of these as leading marks of successful living.

Eugene Boston, junior class president, served as toastmaster. The invocation was led by Tom Wilbanks. Jerome Edwards presented the welcome; Don Ray, senior class president, gave the response. Purposing toasts to the room parents and faculty were Virginia Leake and Bettie Glanton. Charlotte Crain presented take-offs of the senior class.

Other entertainment of the evening was provided by the junior ensemble, directed by Miss Ada V. Clark, and accompanied by Diane Prichard. The ensemble sang "Milk Pole Dance," an English folk song, and "Tenderly" by Gross. Composing this group were Wanda Rogers, Florence Hacker, Virginia Leake, Carol Ann Holman, Jeanine Thomas, Ann McKinney, and Janis Wright.

The guests, including the senior class, the senior classroom parents, the high school faculty and their husbands or wives, the school board and their wives, the junior classroom parents, and the host class, the juniors, enjoyed a menu consisting of baked chicken, dressing, gravy, English peas, mashed potatoes, tossed salad, hot rolls, butter, angel food cake, lime sherbet, and iced tea. A fruit cocktail appetizer was served preceding the meal.

Following the banquet the group attended the prom held in the Cousins Hall Ballroom and danced to the music of the Collegians.

Serving as chairmen of the various committees were Barbara Bacon, Hubert Green, Faye Lowery, Jearlyn Partridge, Joan Payne, and Janis Wright.

Mr. T. L. Devin and Miss Claudia Neelley, junior class sponsors, worked cooperatively with all the junior class members and the junior room parents to make this big event such a success.

Stevens Speaks At FHA Meeting

Mr. Roy Joe Stevens, county judge, was main speaker at the Canyon FHA meeting held Thursday night, April 14, in the CHS cafeteria. He spoke on the problems of youth, and in concluding his talk gave the girls an opportunity to ask questions on present-day issues.

Thirty-eight freshman girls received Junior Homemaker degrees, and an additional 30 members received Chapter Homemaker degrees after Nelda Coffee recalled the qualifications, and each candidate for a degree had been approved.

Movie pictures of the 1954 and 1955 Sweetheart Banquets were shown by Mrs. Clara B. Long, chapter advisor.

Refreshments of pop and Fritos were served to the members, sponsors, and the two guests, Mrs. I. Clyde Davis and Mrs. W. T. Robinson.

Water Discussed In Club Meeting

Are there many students that know about water properties and processes by which pure water is obtained? Mr. Herbert Bruce, instructor in West Texas State College's chemistry department, gave interesting information in his speech, "The Relationship of Chemistry to Industry," to the Science Club members Thursday, April 14, at 7 p. m. in the home of Mr. and Mrs. Wilford Taylor, Jr.

Mr. Bruce told of the chemical process involved in treating water explaining the softening process mostly used. Mr. Bruce was formerly employed with the Public Service at Earth, Texas.

The next Science Club meeting will be a picnic at Palo Duro Club Thursday, May 5, at 7 p. m.

Delightful refreshments composed of punch and sandwiches were served to Carol Holman, Charles Conatser, Wilford Taylor III, Charles Neblett, Carolyn Measamer, Sue Hicks, Jon Cross, Barry Clark, Bernye Bob Woodward, Brian Tolliver, Francis Boyd, and Mr. and Mrs. Joe Findley, sponsors.

FFA News

McClure Speaks at Meeting
At the Canyon FFA meeting held Monday, April 11, in the cafeteria, Boone McClure, director of the Panhandle-Plains Museum, presented an educational talk on old remedies for ailments and diseases of pioneer people.

Foster Parker and Edward Hinders were elected to represent the Canyon chapter as nominees for state and area offices, respectively. The names of these boys will be placed on the ballot along with other chapter representatives running for office at the state and area meetings.

Boys Enter Judging Contests

At the Plainview Dairy Show held Saturday, April 9, in Plainview, the Canyon FFA judging team placed fifth in competition with 45 other teams. Also this team rated second in the district, second in Brown Swiss judging, third in Guernsey judging, fourth in Jersey judging, and fourth in milking shorthorn judging.

In addition Joe Carver ranked sixth in individual scoring among 135 other competitors.

In another judging event held at the Plainview Dairy Show, Canyon FFA boys exhibited top livestock and received high ratings.

Exhibitors who placed in this competition include Joe Carver, Jimmy Kuhlman, Gary Humphries, and Jimmie Hales.

Consumer Values Developed in Shop

To the hum of the jointer, jig saw, grinder, and others, shop boys construct a multitude of projects.

Industrial arts, composed of Shop I, II, and III under the direction of Mr. Sidney Burgess, enrolls approximately 65 students taking courses ranging from hand tool, machine, and skilled or advanced woodworking.

Since the students are free to select their own projects a wide variety of furniture and household equipment are under construction.

A scale duplicate of Wilford Taylor's Model T Ford, a complete salad set, twin beds to match a bed-side table, and a file cabinet base are a few of the unusual devices built in shop. Among the more common constructions are end tables in Shop I and desks and cedar chests in the second and third year classes.

When a project is chosen by a student, his first move is to make an estimate of the cost and amount of materials he will need. The wood he selects is then planned, cut to shape, sanded, assembled with glue and screws, and finished usually with varnish and wax.

To help the experienced shop worker there are nine different types of cabinet machines, a composition of electrical equipment which save as much as \$120 for the builder.

Mr. Burgess stated that the purpose of industrial arts is to teach a sense of consumer values, to develop skill in working with machines and tools, and to serve as a vocational aid for those entering the field of construction trades.

Neelley Announces Annual Art Show

Miss Claudia Neelley, art instructor at the high school and junior high school, announces the coming "Art Fair." The Art Fair will be held from 8 a. m. to 6 p. m. on May 6 and 7 in the American Legion Hall at 300 16th Street.

This is the fourth annual exhibit of art work from the entire school system. If possible, each student having worked in art will be represented by one or more examples of his work. The grade school exhibits will be

made up of painting and novelties. The junior high school will show crafts and painting. Junior high classes have worked in crafts this year more than ever before.

There are two art classes in the high school: Art I, the first year course, and Art II, the second year course. Crafts and painting will come from the Art I class, and crafts will come from the Art II class. Fire prevention posters will come from junior high and senior high schools.

Previous exhibits have made a success by the support of parents and friends of the students. A lot of work has gone into this year's Art Fair. Teachers and students are anxious to see a large attendance as this will help to make the exhibit a good one.

Did You Know That

Another school year will soon be behind us, and another senior class will be joining the many before them in looking toward and preparing for the future.

As a student graduates from high school, he begins thinking of carrying out ambitions that have been instilled in his mind; those that have been his goal for many years.

Let's take a look at the ambitions of the members of the senior class of '55.

Seventeen seniors are undecided as to what they would like to do for the remainder of their lives but desire to finish college. There are 13 who wish only to graduate from high school.

Four members of the class want to prepare younger generations by teaching school. Five others may join this field by teaching music and athletics.

Three boys would like to till the soil and raise food for a fast growing nation.

Sixteen other seniors plan to be nurses, doctors, artists, secretaries, pilots, technicians, businessmen, housewives, mechanical engineers, scientists, and ministers.

Everyone has an ambition, a goal, that makes him work for a specific purpose. We can all state a goal, but we sometimes cannot state the purpose of the goal.

One member of the class stated this purpose very wisely by simply stating, "I want to be a success."

CORRECTION

In this column in the issue of April 16 there appeared a short history of our school. A correction is necessary. It seems that the

private school was held in 1895, not in 1908 as was previously stated. The first graduate finished in 1902, and there has been a graduating class since that date.

BELLAH'S 30TH ANNIVERSARY SALE

OUR THANKS TO YOU - - - OUR CUSTOMERS

Bellah's would like to take this way of thanking each of our customers and the people of Canyon for the wonderful support that has made it possible to live and be in business in this City for the past thirty years. Only thru your continued co-operation and patronage has it been possible for us to enjoy the wonderful business we have had during this time.

We only hope that in the next thirty years we will be able to continue giving satisfactory service to you, our customers. If at any time you have any suggestions to give us that will better our service to you, we would appreciate them. Our greatest pleasure is to know that we are doing our job in a way that meets your needs and desires.

Again, we say, thanks for every thing.

HEY KIDS! - - The Plainsman In Person

The Plainsman and all his gang, in person, will be at Bellah's Saturday afternoon from 3 to 5 p. m. Make plans with your parents now to see the Plains Milk T.V. Star. There will be treats for all you Kids. Don't miss The Plainsman at Bellah's Saturday, 3 to 5 p. m. We will have lots of fun.

HEY PARENTS!

A FREE BASKET OF GROCERIES WILL BE GIVEN AWAY EACH 30 MINUTES FROM 9 A. M. UNTIL 7 P. M.

Given to the customer driving the lucky cart

Around the Town..

(By Mrs. Clyde W. Warwick)

Mr. and Mrs. M. H. Rockwell, Sr., moved to their present stock farm five miles north of Canyon in 1919 from Amarillo, where they had lived for the 12 years following their marriage. Their three children were born in Amarillo.

Mrs. Rockwell had moved to Amarillo with her parents in 1882 when she was two years old, moving from Doans, Texas, where she was born. After living in Amarillo three or four years her father, D. N. McBride, moved his family to La Plata which at that time was the county seat of Deaf Smith County. Mr. McBride at this time laid out the first road from Amarillo to La Plata, a distance of about 50 miles.

Mrs. Rockwell says she is not sure whether he laid out this road with a plow or with piles of dirt. She says one way they marked their way across the prairies was to take a shovel and pile dirt along the way and thus mark the road. She said the prairies in those days all looked alike and you had to have some way to mark your way, so nearly everyone carried a shovel, and marked their way with these piles of dirt. She said the road her father laid out was "as straight as a die," from Amarillo to La Plata.

When the railroad came it missed La Plata going to Hereford, and Hereford was then made the county seat. This killed the town of La Plata and the McBrides moved to Canyon. Mrs. Rockwell said that in those early days her father walked the 50 miles from Amarillo to La Plata, walking this distance in a night.

The McBrides moved from La Plata to Canyon and lived on a stock farm east of Canyon, just this side of the creek and the four children walked to and from school most of the time. At that time the school house was located where it now stands. Mrs. Rockwell says Cyrus Eakman, father of Mrs. H. A. Brown, was the teacher of the older children and Gillian Sink taught the younger children. Attending school here then were: Carl, Lucile and Mattie Coffey; Clara Eakman; Avis and Clyde Beard (Avis is Mrs. Charles Flesher); Hattie and Lela Patton; Sammy and Jean Barks; (Sammie is Mrs. Ed Harrell); Clyde McElroy; two Gatewood children; three Prichard children; three Shotwell children; May Lair; Dolly, Crisie, Abbie and Tennie Thompson; (Dollie is Mrs. B. C. Taylor); Charlie and Bertie Long; Vince Reeves; a Wirt child; Bob and Neva Hicks; Jim Redfearn; Eddie VanZant (who is Mrs. Worth Jennings); the Hoffman children and the four McBrides, Dollie, Montie, Dave and Amos.

Mrs. Rockwell said that at this time union church and Sunday School services were held in the old court house, that I. T. Reeves was superintendent and that Mrs. L. T. Reeves was her Sunday School teacher.

The McBride family lived in Canyon a little over a year and then moved to the Canadian River where Mr. McBride filed on four sections of land. At this time a man could file on four sections of land, one section for his homestead and three sections for grazing land. They paid \$2.00 an acre for the homestead and \$1.00 an acre for the grazing sections, having 40 years to pay for the land at 3% interest. Mr. McBride filed on land along the Canadian River and each section was one-half mile wide and two miles long. The sections were laid off this way to give as many as possible access to the river.

When she was 13 years old Mrs. Rockwell went to Henrietta where she attended high school until her graduation. After graduation she received a high school diploma and taught school at Petrolia, close to Henrietta, for one year, and then came back to the Canadian River where she taught school for one-half year.

There she met Mr. Rockwell again whom she had known ever since she was 13 years old, and they were married January 1, 1907, in Amarillo. They lived in Amarillo for 12 years. Here their three children were born: Mrs. Harry Krabbe, who has two sons; Mrs. Arthur Keeter, who has two girls and one son and their son, M. H. Rockwell, Jr., who has one daughter. This makes six grandchildren for the Rockwells and they are just as proud and wrapped up in these children as you can imagine.

Mrs. Rockwell had joined the Presbyterian Church when she was 15 years old and remained in this church until it disbanded when she joined the Methodist Church. Mr. Rockwell joined the Methodist Church with her after their marriage and they have been faithful members ever since. Mrs. Rockwell taught Sunday School class until her ill health compelled her to stop most of her activities outside her home. Both Mr. and Mrs. Rockwell have continued an active interest in the Church even though their health has prevented them from attending. They have always been active in their community and this interest has not lessened even with their ill health which prevents them attending most functions.

Mrs. Rockwell took an active part in Home Demonstration Club work until last year when she was forced by ill health to resign.

Mr. Rockwell moved to a ranch in Carson County in the fall of 1891. He was then 16 years old, coming from Missouri with his parents. He worked on this ranch with his father until the spring of 1896 when he went to work on the Turkey Track Ranch which at that time was owned by the American Pastoral Land and Cattle Co. of England. He left this ranch to work for the Winters Ranch nine miles north of Panhandle.

In the spring of 1900 he began working for the L. X. Co., which was owned by the Hansford Land and Cattle Company of England and is now part of the Bivins Ranch. Leaving here he went to Northwest Colorado where he worked for three years for the P-O-T Ranch owned by the Pierce brothers.

He came back to Amarillo and was agent for the Seaberry Spraying Co., which had developed a spray they hoped would replace dipping cattle. The spray did kill the ticks and lice on the cattle but had a crippling effect on the cattle so the company went broke.

He then went to Panhandle and helped to survey the Santa Fe railroad from Panhandle to Roswell, New Mexico.

After this he worked for the government as dip agent and supervised the dipping of cattle, for cattle scab, over the Plains country for a radius of 150 miles from Amarillo.

On January 1st the Rockwells married and he said, "He settled down." They lived in Amarillo and Mr. Rockwell worked with windmill construction on his own until they moved to their present farm where they have lived ever since.

When the Rockwells moved on their farm Mrs. Rockwell planted some pecans, of those that came up they have two trees left. They are large, beautiful trees and bear about 2½ bushels of delicious pecans every year. Some years the pecans do not develop as well as other years, but they always have pecans.

Mrs. Rockwell also planted a thicket of wild plums from seed she gathered along the Canadian river and these furnish them with plum butter. She has recently planted "five in one" apple trees and these trees each bear five different kinds of apples.

They have a large juniper shrub which is nearly 20 feet in diameter and a large sugar loaf pine tree and a lilac hedge that Mrs. Rockwell's mother gave them the seed for, a wild grape vine that twines around a pear tree and makes a cool shade in the summer besides furnishing grapes.

Mrs. Rockwell has many hobbies. She said she is "Hobby Crazy." She has collected a great deal of fine china, has always had a lovely garden, both flower and vegetables and in spite of the cold weather had some early flowers in bloom on April 5.

Her largest collection and the one she seems to love the most is her rock collection. There must be several hundred rocks which different people have brought to her from places all over the world. She remembers where they came from, can tell what kind of rock each is, and who gave it to her. There is much petrified wood, the beautiful shades of red, yellow and gold from the Masterson Ranch and the shades of black and gray from the Bivins Ranch. A cannon ball from the Civil War and many Indian mortars and pestles the Indians used to pound their grain, one worn entirely through.

Her son, H. M. Rockwell, Jr., brought her rocks from Guadalcanal and The Hebrides when he returned from service in the armed forces.

The Rockwells have always been noted for their hospitality and good fellowship. The day I called Mrs. Rockwell asking if I could come to see her, in keeping with this spirit of hospitality she baked a "Whipped Cream Cake," the recipe of which had been given to her when she was a young girl. It was delicious and she gave me the recipe. It is much easier to make than most of the recipes of the "early days."

4 eggs, 2 cups sugar, 2 level teaspoons B. P., 3 cups flour, 1 cup milk, 1 cup shortening, 1 ts. vanilla.

Beat the whites and set to one side, beat yolks in a separate bowl add shortening and sugar and beat, add flour and milk a little at a time beating after each addition, add vanilla and fold in beaten whites. Sift 2 cups of flour and B. B. hold back one cup of flour, using only what is needed of the third cup of flour. In this cake Mrs. Rockwell used only two cups of flour. When I made it I used 2 cups of flour and one tablespoon more. Bake in three layer pans in 350 degree oven for 20 or 30 minutes. When cool put together with 2 pints stiffly beaten cream, sweeten to taste, add vanilla and coconut if desired.

As we visited with the Rockwells and from our knowledge of them

through the years we were reminded of this poem by an unknown poet:

"Good timber does not grow in ease;
The stronger wind, the tougher trees.
The farther sky, the greater length;
The rougher storms, the greater strength.
By sun and cold, by rain and snows,
In tree or man good timber grows."
Their spirit of hospitality, their glad sharing with others, their keen sense of humor and their deep enjoyment of life has endeared the Rockwells to their family, friends and associates.

David Evans who was a student in W.T.S.C. and worked in the Canyon post office, is now in Tokyo with the armed forces. He is stationed in Sintai. David writes it is about 250 miles north of Tokyo, approximately the same latitude as San Francisco. The camp is called Schimmelpfenning. It is a German name and was named for a German officer during World War II.

"My voyage over was pretty good. I didn't get seasick, but some of the men were very sick. "I was in Tokyo for two and a half weeks. I saw MacArthur's old headquarters, the Imperial Palace Grounds and the Imperial Theatre. Here I saw "This is Cinerama." It was in Japanese. I really did enjoy it even if I couldn't understand a word.

I went window shopping in Ginza St. It is the main shopping street of Tokyo. Here I saw the beautiful Mikimoto pearls.

All of the people here are small and round faced. Some of the kiddoes are so cute.

Their farming methods are very unusual and interesting. Some use the ox, but mostly everything is done by hand. The fields are so small. Seems like everything is small here.

"I am typist for the Assistant Adjutant of the 5th Cavalry Regiment. Because of the over-supply

of brass instrument players, my band didn't work out.

Mrs. D. A. Shirley is home from her recent surgery and is recovering nicely. Her son, Lewis's wife, is with her. Mrs. Shirley can have company now.

The Department of Agriculture scientists have developed some new vegetable snacks that will be on the market soon. One is a potato puff — pillow-shaped and fat free, with a crunchy texture. Another is a nut-like nugget made by frying peas and lima beans in deep fat. Also, there are vegetable chips — akin to potato chips but with their own characteristic tastes — made from beets, carrots and parsnips.

The Upper Room Chapel, Nashville, Tenn., has installed a wood carving of Da Vinci's "Last Supper." It measures 18½ feet long, 8½ feet high, 12 inches deep, and is thought to be the world's largest wood carving.

Nine carvers spent almost a year in the completion of this reproduction of Da Vinci's work.

Dr. Jonas E. Salk, a youthful medical scientist, is becoming a famous man. The "Salk vaccine" against poliomyelitis bears his name because he pulled together previous research, discovered how to make the vaccine.

A team of Harvard University doctors—John F. Enders, Thomas H. Weller, Fredrick C. Robbins—found a suitable way to grow polio viruses for vaccine, won a Nobel Prize for the discovery. Dr. Dorothy Horstman, of Yale, and Dr. David Bodian, of Johns Hopkins, found that polio virus circulates in the blood, where a vaccine can work.

Dr. Salk and associates at the University of Pittsburgh discovered the way to mass-produce the virus, kill it chemically, filter out a safe, red-colored liquid that would protect against polio.

Commercial production of vaccine is beginning nine years after Dr. Enders' research began, 17 years after establishment of the

National Foundation for Infantile Paralysis. The Foundation has spent 22.4 millions—contributed by the public in the March of Dimes—to finance research. The Foundation owns the process, is turning it over to the drug stores for a nominal sum, says the Foundation won't make money off the vaccine.

Dr. Salk is working on a new problem—a vaccine for influenza. This would not have been possible but for the March of Dimes.

Sometimes things look pretty black, there are stories of parents murdering their children, children murdering their parents, crime all over the front page of the paper, killing for money, robbing of banks. Yet all we need to do is turn back the pages of history to know the world is getting better all the time. Take these laws written in Rome in 367 B. C.: "Monstrous or deformed offspring may be put to death. "The father shall, during his whole life, have absolute power over his legitimate children. He may imprison the son, or scourge him, or keep him working in the fields in fetters, or put him to death, even if the son holds highest offices of state, and were celebrated for his public services. He may also sell the son. "But if the father sell a son a third time, the son shall be free from his father." At least such crimes today are against the law. There were many abuses against children in the early days. Today many crimes are committed against children, but they are against the law, while in early days these same crimes were within the law.

Mrs. Lee Johnson is happy to be home again from her recent surgery. She is recovering nicely. Mrs. Johnson said she thoroughly enjoyed every minute in the hospital, the care and kindness of her doctors, friends, and family which made this a most pleasant occasion for her.

There's a junk yard near a grade crossing in Denver, Colorado, with a sign reading: "Go ahead, take a chance. We'll buy the wreck."

Before long now it will be too

hot to do what it is now too cold to do.

Mrs. Levi Cole will return to her home early this week after an operation at Neblett Hospital. She has improved rapidly following her surgery, and stitches were removed Saturday. Margaret is one of the best known women of Canyon and her rapid improvement has been most gratifying to her friends.

Sports Quiz

1. What upcoming heavyweight bout will furnish Rocky Marciano's autumn opponent?
2. What team did spring training writers pick to win the AL flag?
3. What Milwaukee hurler beat the Dodgers five times in 1954?
4. What was Wes Santee's recent near-record mile time?
5. Who won the Johnny Saxton-Paddy DeMarco fight?

THE ANSWERS:

1. The Archie Moore-Nino Valdes bout.
2. Cleveland.
3. Gene Conley.
4. 10.05 seconds.
5. Paddy DeMarco.

ART OR UTILITY?

A CWA artist was commissioned to paint murals in the reptile house at the National Zoo.

He returned to admire his work and discovered an energetic lizard climbing up a tree trunk neatly painted on the side of his cage.

"Come — look!" shouted the artist to Dr. William M. Mann, the zoo director. "How's that for art?" "Even fools the lizards."

Mann looked a minute, and then said laconically, "Well, maybe he was going in that direction any way."

Charles Thomas, Secretary of Navy: "Our Navy is well equipped to carry out its part in either global or limited warfare."

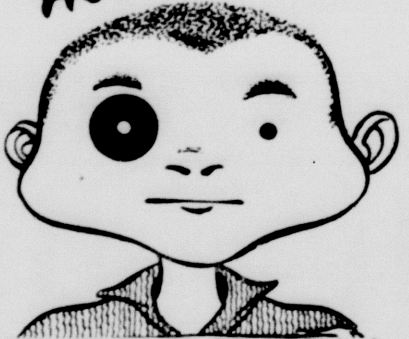

Usually the man who inherits a barrel of money starts right out to whoop it up.

FALSE TEETH That Loosen

Need Not Embarrass

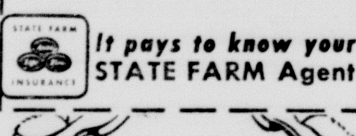

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

SMALL ACCIDENTS?

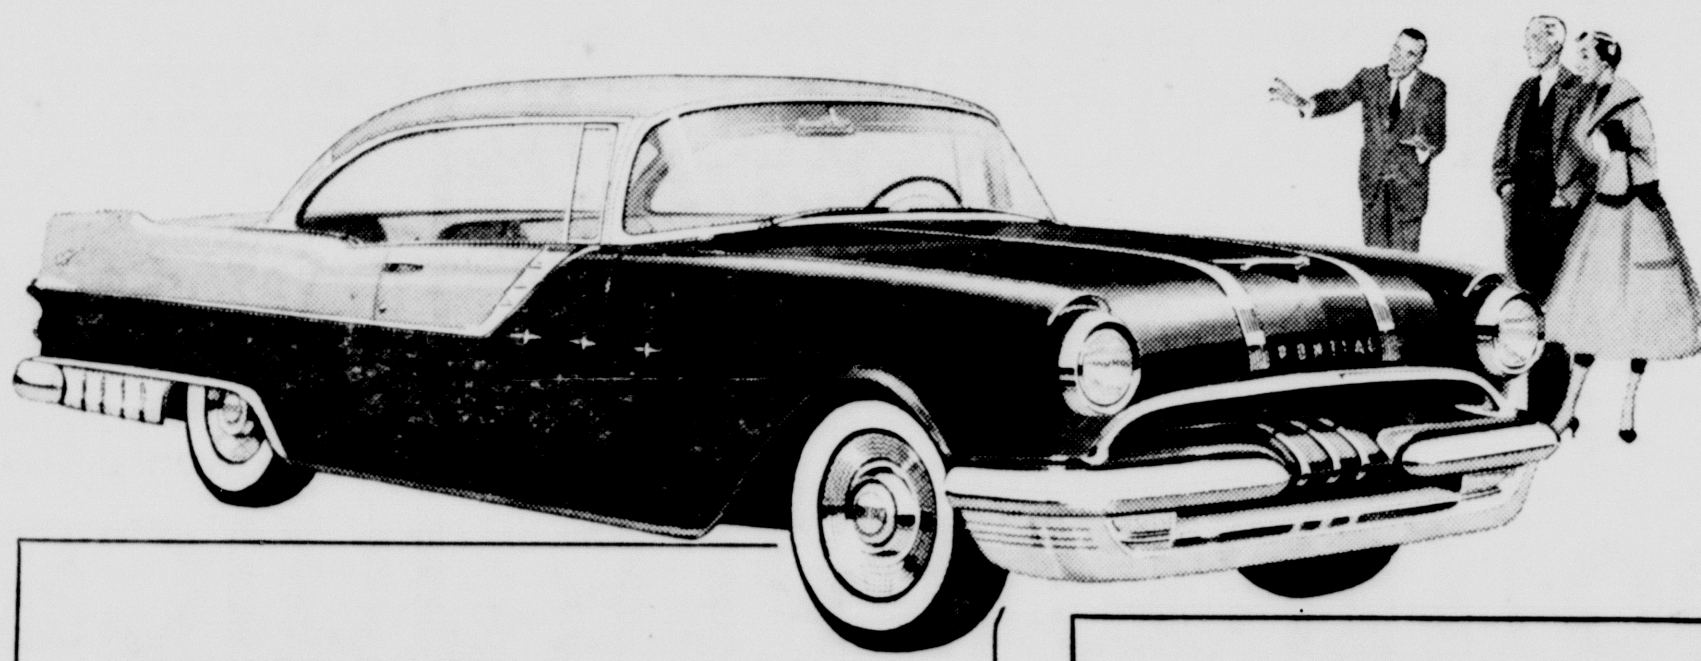

OUR "80-20" AUTO INSURANCE PAYS 80% OF THE COST

No matter how small the collision accident, under this policy, you pay only 20% of each \$1.00 on the first \$250 of each loss. Above that amount, State Farm pays everything. Call and learn more about "80-20" today.

Here are the Three Greatest New-Car Values in America!

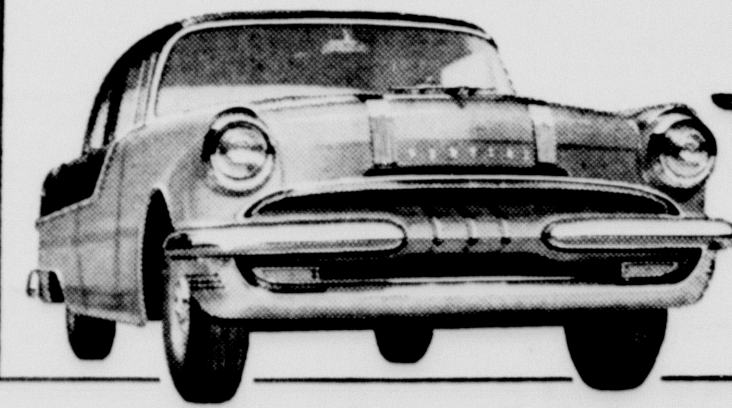

THE FABULOUS STAR CHIEF—Here's the beauty that is taking business from the costliest cars—and no wonder! It's luxury-sized. The roomy body is mounted on a 124" wheelbase. It's luxury-powered. The Strato-Streak V-8 with four-barrel carburetor puts 200 horsepower up front. It's luxury-styled. Fabrics and appointments match those of the highest-priced cars. It's beautifully distinctive—way out front for future-fashioned smartness. And it's a Pontiac—which means topmost reliability, thrift and resale value, and the easiest price on any big luxury car!

THE FUTURE-FASHIONED 870—Your favorite body style becomes really exciting when it's an 870. Choice of Vogue Two-Tone colors is as wide as your imagination. And it's just as outstanding in all other ways. Outstanding in performance with exclusive Strato-Streak power. Outstanding in comfort and riding ease with a long wheelbase and big-car stability unmatched at the price. Especially outstanding in the wonderful way it handles in traffic, responds with passing power. For luxurious driving at modest cost you simply can't do better.

THE SPECTACULAR 860—Here is the biggest, smartest, highest-powered car ever priced so low—less than many models of the lowest-priced lines and much less than stripped economy models of higher-priced makes. Yet it's a king-sized car with a 122" wheelbase, delivering 200 horsepower. Beauty? Just look! And remember—you can choose from 4 interiors and 36 color combinations. Never has it been so easy to own a truly fine car!

All with the history-making 200-H.P. Strato-Streak V-8 Engine!

Every model in every line of Pontiacs has the sensational Strato-Streak V-8 engine, one of the most efficient power plants ever developed. Here's more take-off punch, more passing drive and more years of smooth performance than you have ever enjoyed in any car within hundreds of dollars of Pontiac's low price range. And that applies whether you decide on 180 horsepower or specify the optional power-package which moves you up to a blazing 200 horsepower. Either way you get topmost power per dollar.

Just Between You, Me . . . and the Gatepost

By Lawrence Hunnicutt

By the end of last week spring time was definitely in the air. The trees about the court house seemed to be opening their leaves so fast you could almost see the action. Spring will be a month old officially tomorrow so it's time that it got started bursting out all over. There were even some cases of spring fever about the country. Or at least there were some people complaining about that ever-relaxing malady known as spring fever.

Kenny Goodman and wife, Peggy, and their two daughters, Martha and Cindy, were in Austin over the week-end looking for a place to live while Kenny attends Texas U. Kenny is going to study law to use in connection with his work in the abstract business. Much of the work in an abstract office must be carried on by someone who has a law degree. By having a degree in law a person in the abstract business eliminates many trips to and from a lawyer's office.

We enjoyed a short visit with George Stevens Saturday morning. Mrs. Stevens is back home after having spent several days in the hospital. Sure nice to hear that she is doing better after being ill and having to remain in bed.

Some Amarillo visitors last week were talking about what a wonderful curio shop Canyon has. They were speaking of the Corral out on highway 60. The place is owned and operated by Mr. and Mrs. Harry Wheeler. They have recently moved the building and its stock from the north side of the highway to the south side of highway 60. Now the building sits just one door west of the Cowboy Cafe. The shop is sure a nice looking place and though it caters more to tourist trade than local business, it will do a great deal to leave a pleasant thought with tourists who stop there when they remember Canyon.

The boss and several other staff members of The News spent a pleasant week-end in Amarillo at the Panhandle Press Association's annual convention. This organization is one of the oldest of its kind in West Texas. It's certainly a nice thing for publishing folks to get together every now and then and sort of enjoy a visit with each other to see how other people in the same business are getting along. As far as pure work is concerned and keeping a person's nose to the proverbial grindstone, there's probably no other occupation that requires more than publishing a newspaper. The convention of the Panhandle Press Association sort of gives the tired working people a chance to relax and enjoy a rest from their labors.

Fishing at Zack's Nursery between here and Amarillo is good, if you don't believe it ask Mrs. Gladdis Samples. She caught fish there faster than her husband could pay for them. They have a lot of mountain trout up there and you pay for what you catch. You don't even have to bother with carrying your own fishing equipment along. You get that with the deal up there and if you like to catch fish to eat and enjoy, you can save time by going to Zack's.

Jack Jennings was by Saturday morning to give us a report on the Memorial Fund for a plaque honoring the Randall County World War II dead. The Memorial and plaque is to go in the new park Canyon is constructing but the funds are not coming in very fast. A week has gone by since the letters asking for contributions were sent out. Saturday morning a total of \$155 had been contributed. They need \$600 for the Memorial and Jack said most of the contributions had come from veterans of World War I. He also pointed out to us that a person doesn't have to be a WW II veteran to make a contribution.

Now we come to that part of the column that some say trails off into nothingness beginning with this sentence.

This is the time of year when the most popular sweater is one with a healthy young damsel in it.

It is rumored that communists are complaining. It seems that the rich are enjoying the nice spring time weather as well as the poor among the communists.

Have you ever noticed that a closed mind and an open mouth usually go together?

1. Who is President of Pennsylvania State College?
2. What branch of the U. S. Army has been abolished?
3. What is the estimated gambling "take" in the U. S. each year?
4. How long did it take to build Shasta Dam?
5. Which of the two Major Leagues is the older?
7. What is the doctor-patient ratio in the United States?
6. How old is the United Nations Organization?
8. Who originated Poor Richards Almanack?
9. What is the capital of the Hawaiian Island group?
10. With what science does ornithology deal?

The Answers . . .

1. Dr. Milton Eisenhower, brother of the President.
2. The Cavalry.
3. Twenty billion dollars.
4. Twelve years.
5. The National—80 years old this year.
6. Ten years old on April 25, 1955.
7. An average of 750 patients to one doctor.
8. Benjamin Franklin.
9. Honolulu.
10. Birds.

CLOVERLEAF 4-H CLUB REPORT

Wayside Cloverleaf 4-H Club had their meeting, April 12, at school. Mary Scroggins, president, presided at the meeting. Frances Heisler led the 4-H ritual. Minutes were read and approved. Mrs. Bill Heisler, adult leader, gave a demonstration on Brownies. Members present were Patsy and Nancy Schrib, May Scroggins, Polly Cummins, Odessa Whitten, Frances Heisler and Laraine Newsom. Next meeting will be April 26 at the school.

MINOR MALADY

Patient: That was a wonderful back treatment, Doctor. Was it my sacroiliac?

Doctor: No. Your suspenders were twisted.

Nathan F. Twining, Air Force Chief of Staff: "The Air Force is equipping its striking forces so they will be immediately ready for Communist military aggression of any type from limited to general war."

Bible Verse to Study

"I know that thou canst do every thing, and that no thought can be withholden from thee."

1. Who made the above statement?
2. Upon what occasion?
3. Where may this statement be found?

BIBLE VERSE ANSWERS:

1. Job.
2. After the submission of his will to Jehovah.
3. Job 42:1.

CONSUMER CREDIT

At the end of 1954, consumer credit stood at a high of \$30,125,000,000. That figure does not include home mortgage loans, which soared to a record-shattering \$75,600,000,000. In January, 1955 it dropped to \$29,700,000,000 but it was still the highest for any January and \$960,000,000 above the year earlier figure. Installment buying accounted for the major part of consumer credit.

GI'S FLUNK

The United States Army in Germany has announced that it is sending 5,367 soldiers home from Europe because they scored "below standard" in mental and aptitude tests. All those to be returned have had at least three years of active service and are "ineligible for re-enlistment due to current higher standards." The rotation will begin in May and will be completed by the end of July. Total strength of the U. S. Army in Europe is said to be about 300,000 men.

John Foster Dulles, Secretary of State: "The time may come—I believe it will come—when Russians of stature will patriotically put first their national security and the welfare of their people."

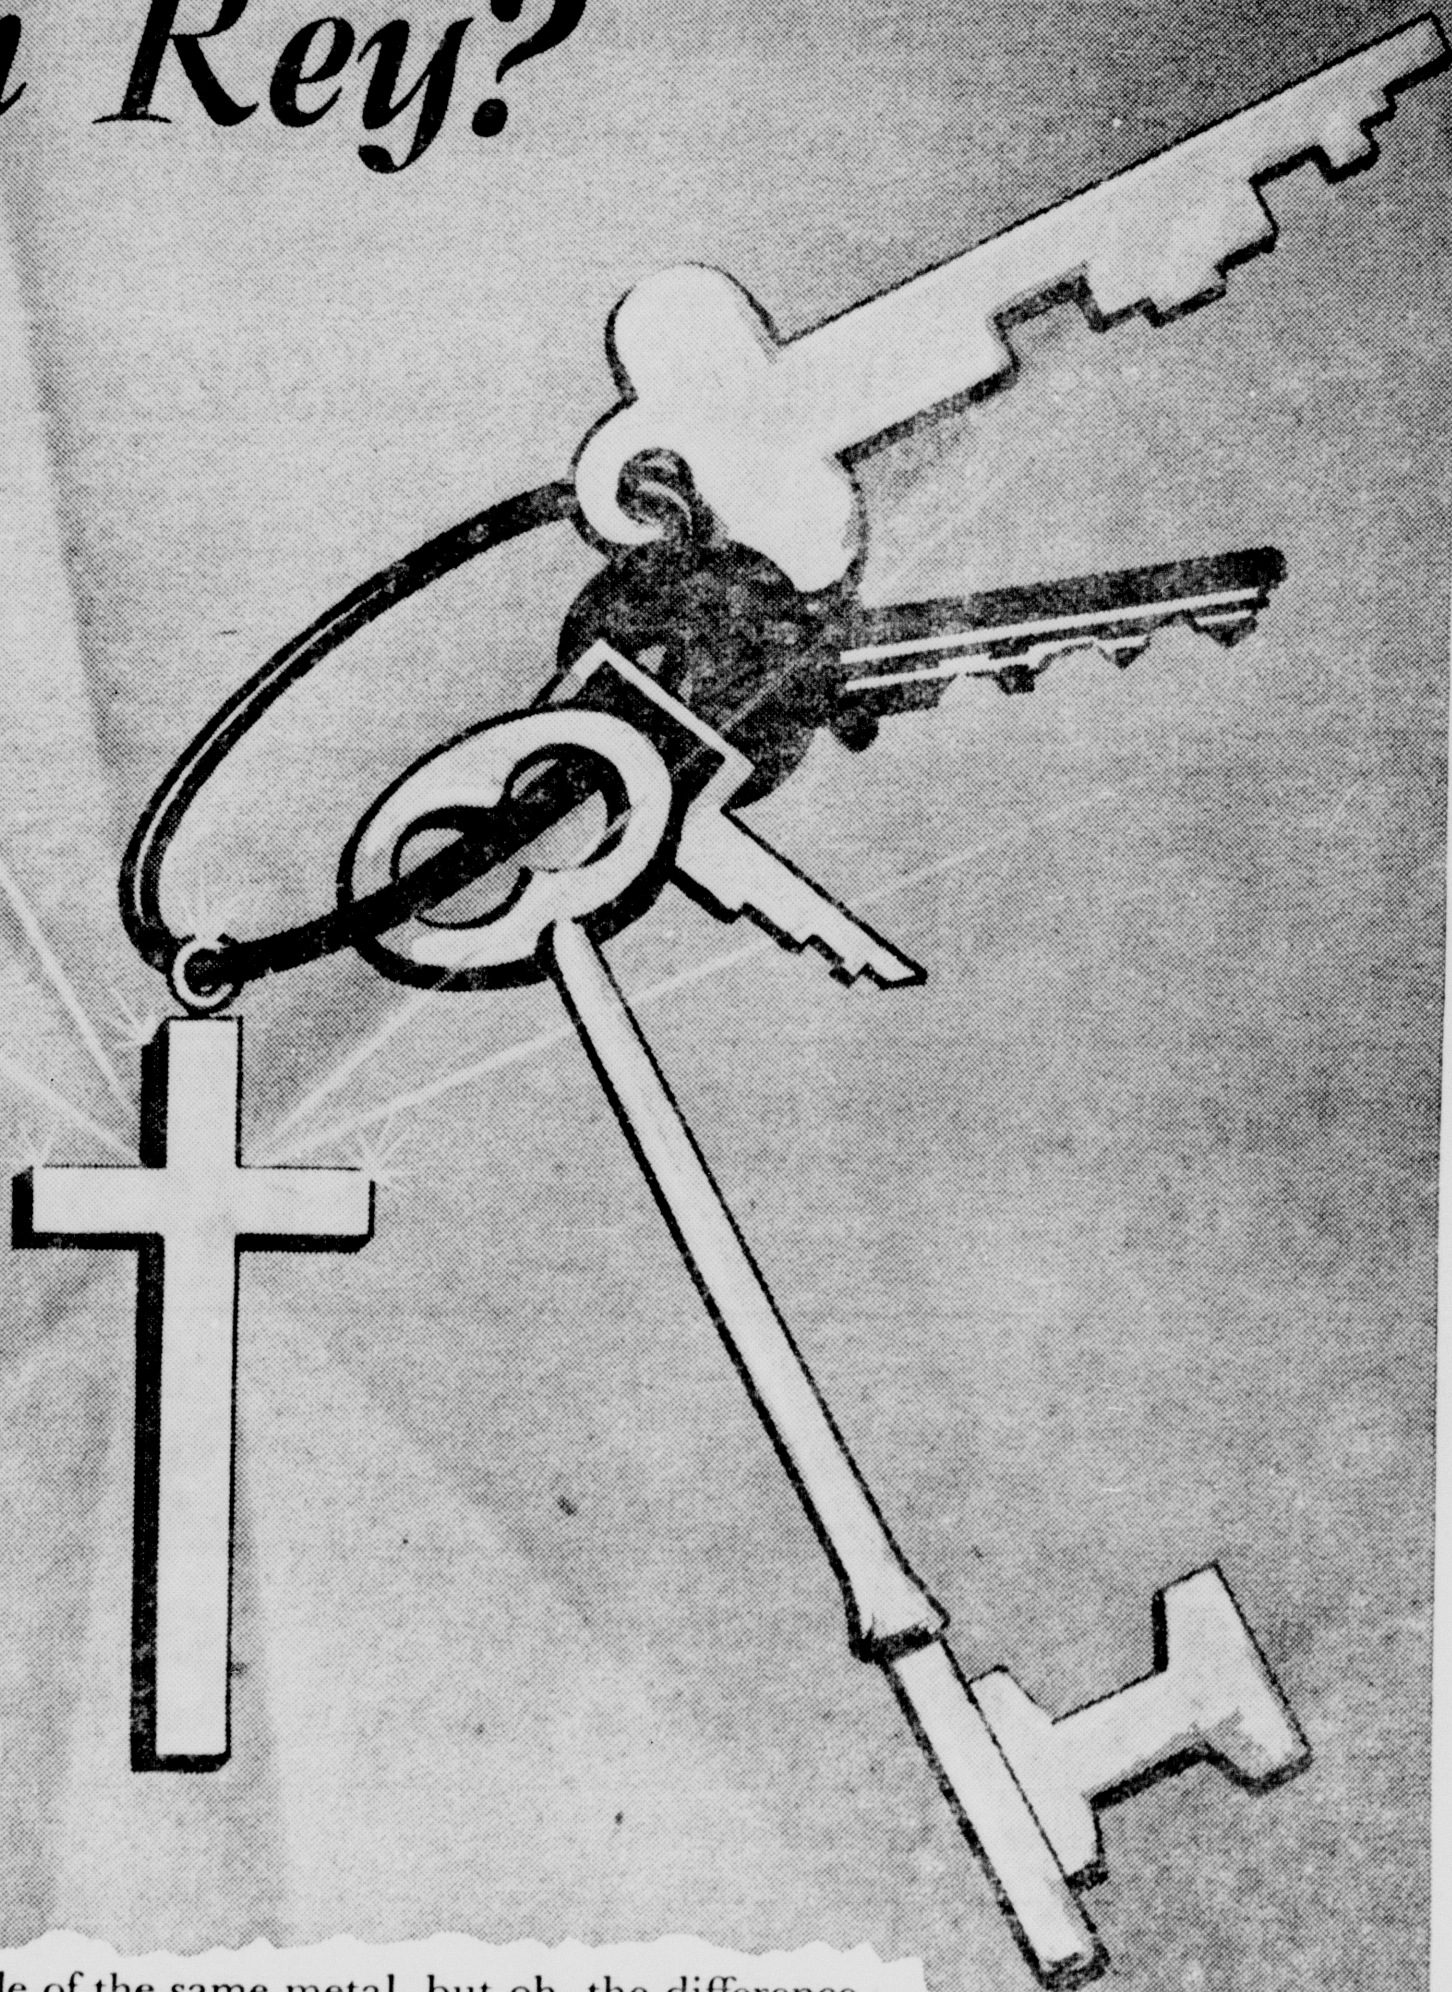

Hubert Humphrey, U. S. Senator from Minnesota: "The important thing about Russia is not what man is in power but what policy is being employed."

Henry Cabot Lodge, Jr., U. S. Ambassador to the United Nations: "For the first time since World War II, there is no large scale fighting going on anywhere in the world."

Experience is something you have left when all else is gone.

A man of resources isn't necessarily a man of means.

Which Key?

THEY all may be made of the same metal, but oh, the difference in the doors they open! Your need determines the key you use. If you would open a treasure chest . . . the small key will do. If you would loose the intricate lock on the heavy bank vault . . . it takes a bigger, more precisioned key. But if you want the freedom of God's universe — if you want entrance to human hearts — if you want to open the gates of Heaven — then take the cross. It is the key which Jesus hammered out, and you'll find rules and regulations on how to use it at the church of your choice Sunday.

DIRECTOR

CARNATION HOME SERVICE DEPARTMENT

CHICKEN CHEESE SOUFFLE
(Makes about 4 servings)

1½ cups (large can) undiluted
Carnation Evaporated Milk
½ teaspoon salt
2 cups (about 8 oz.) grated process
type American Cheese
2 cups chopped cooked chicken
3 eggs yolk
3 egg whites

Simmer Carnation and salt in sauce-
pan over low heat to just below boiling
point (about 1-2 minutes). Add grated
cheese to Carnation and stir until
cheese is melted (about 2-3 minutes).
Add chicken and cool slightly. Stir
small amount of sauce into beaten egg
whites. Place in buttered 1½ quart cas-
serole or individual casseroles. Place in
pan of hot water and bake in moderate
oven (350° F.) about 1 hour. Serve at
once with green salad.
